Washington—Exceeding even the pressure of candidates for the cabinet, the demand for the spoils of battle now has extended with great intensity to the subordinate positions such as assistant secretaries membership on the independent commissions and appointments to the diplomatic service.

Although the Republican administration has been continued in power and the assumption would naturally be that new changes would be made or that a relatively small number of vacancies would occur, the flood of requests is apparently just as large as if the opposition party had been turned out of power and the whole government taken over by a new political regime.

President Hoover is trying to follow the plan of his predecessors in requiring that all recommendations for appointments in the ten executive departments must first be made by the cabinet officers under whom the respective applicants would naturally fall. Nevertheless candidates are having their friends write direct to Mr. Hoover and some members of congress have already begun the usual process of telling the chief executive about the number of people to whom he owes his election.

WORK IS ACTIVE

The Republican national committee is very conspicuous in the picture because Chairman Work has requested that a permanent organization be maintained to help the Hoover cause. This will make it difficult to turn away the office seekers whose enthusiasm might have been a vital part of the campaign but which conceivably might be diminished when the incentive is in some instances taken away.

Generally speaking, Mr. Hoover will make no change in those bureau posts where the merit system counts most and where the government must vitally needs to conserve the experience of its minor officials.

There is a curious development already making its appearance in the whispering that accompanies the Machiavellian process by which political offices are obtained. It is the impression that Mr. Hoover will not appoint anybody who is not in

**ESKIMO PARTY IS SAFE
AFTER VIGIL ON ICE**

Ottawa, Ont.—(AP)—The story of how a hunting party of Eskimos fought hunger and exhaustion for six days on an ice floe in Hudson straits without food or shelter was relayed to officials here Saturday by the government radio station at Nottingham Island, where the five finally found refuge.

The men had set out Feb. 21, venturing several hundred yards out on the ice in search of game. Without warning the ice broke adrift from shore ice on which were their dog teams and supplies.

The floe drifted about in the pack ice of the straits. The men had only their sealskin clothing to chew to appease their hunger and had to keep moving constantly to keep from freezing.

Finally their floe touched shore and the men escaped to land and made their way through 30 miles of wilderness to Boucherville. They collapsed on sighting the village but they had been seen and were rescued and revived. The message said all apparently would recover.

Week's Weather

For the region of the Great Lakes—Mostly fair weather beginning of week temperature near seasonal average, followed with warmer with precipitation in middle portion, and fair and colder again by close of week.

For the upper Mississippi and lower Missouri valley, and the northern and central great plains—periods of precipitation by Tuesday and again by close of week; temperature above normal first of week; colder by close.

**TWO NEW OFFICIALS
ARE NAMED BY HOOVER**

Washington—(AP)—President Hoover Saturday appointed former Governor Joseph M. Dixon of Montana, assistant secretary of the interior, and Davis S. Ingalls of Cleveland, assistant secretary of the navy, in charge of aviation. E. C. Finney, present assistant secretary of the interior, is to become solicitor of the department.

Recommend Golf Club For New School Site

**LOCATION IS
BEST IN VIEW,
BOARD THINKS**

Purchase of Riverview Country Club Property by Council Advised

Purchase of the Riverview Country club property, consisting of approximately 104 acres of land, as a site for a new senior high school Friday night was recommended by the school board at a special meeting at Lincoln school.

The recommendation will be presented to the common council at its next meeting. The purchase must be approved by the council before it can be made.

"At the same time, the board decided to request John Callahan, state superintendent of public instruction, to appoint a committee from his staff to conduct a survey of the school situation in Appleton and prepare a report for the board."

This survey will be conducted independently of the board. Local education will give the state committee only such information as they may ask for, as it is intended the survey be made entirely without any suggestions.

The recommendation to purchase the Riverview Country club land, on which the school board has an option, was prepared following submission of a report of a joint committee consisting of four members of the school board and four members of the common council. The committee, after conducting a thorough survey of probable sites, selected the golf club grounds as the most suitable both for present and future requirements, and the board based its decision on this report.

CAPACITY NOW TAXED

The present location of the high school is not considered ideal by the board. Furthermore, the capacity of the building already is taxed to the limit, and will be entirely inadequate to accommodate the school population within a few years, it was pointed out. To avoid the necessity of preparing a hurried and poorly considered program later on, the board held that steps to remedy the situation should be undertaken now.

Even if the site is purchased, construction of a new building will not be undertaken for several years—probably five or six years, board members indicated. The capacity of the building will be overtaken by that time, however, and steps to ward erecting new quarters will have to be started then, it is believed.

If the board's recommendation goes through the council, the school property owned in the Third and Fifth wards will be turned over to

**REED WELCOMED HOME
BY 5,000 MISSOURIANS**

Kansas City—(AP)—A cheering crowd of more than 5,000 hometown folks gave "Jim" Reed a tumultuous welcome when he returned to Kansas City Saturday to become a private citizen after 18 stirring years of service as United States senator from Missouri.

As former Senator and Mrs. Reed stepped from the train at the Union station a roar of greeting went up from the welcoming thousands gathered there. A band was on hand to furnish music for the occasion.

Local Democratic political organizations sent banner-waving delegations in force, but it was not entirely a demonstration by party members who had supported Mr. Reed in many political campaigns. Prominent Republicans were in the crowd to pay a tribute and civic organizations were represented.

Mr. Reed, who has announced his retirement from active political life, said he was anxious to get established in his home here and resume his law practice.

**CHARGES DRY AGENTS
USE SIGNALS IN COURT**

Milwaukee—(AP)—Charging in an affidavit that he had seen dry agents communicate with each other by signs and gestures during hearings on dry cases, Attorney Cornelius Hanley Saturday demanded the exclusion of dry agents from the courtroom while another agent is testifying.

The request was made to U. S. Commissioner Harry L. Kellogg who is hearing the case of William Smith.

"It has been the custom of prohibition agents to prompt one another during preliminary examinations," Mr. Hanley said in explanation, "and to indicate by signs and gestures what answers should be made by other agents testifying under oath."

**FLOOD DANGER GROWS
IN BADGER REGIONS**

Janesville—(AP)—Due to the recent thaw, four rivers in southwest Wisconsin are carrying their full capacities of water. Railroad men arriving here declared that another warm spell might produce flood conditions in some sections.

The rivers are the Pecatonica, the Little Pate, the Galena and the Rock. A westbound Milwaukee road train was late here Friday due to the flood waters on the right-of-way along the Pecatonica river near Platteville.

**REPORT NICARAGUAN
REBEL LEADER SHOT**

Managua, Nicaragua—(AP)—Native papers Saturday said General Manuel Maria Irujo, former Sandino insurgent leader, who has been in the custody of marines for the last month, had been executed by members of the Nicaraguan volunteer constabulary.

Actress is Ill

Paris—(AP)—The illness of Elsie Janis, American actress, took a more serious turn. Her temperature Saturday morning was 102 and her pulse 110.

**BANDIT PROFESSOR
TAKES HIS CLASS
OUT FOR PRACTICE**

Chicago—(AP)—A professor-like looking fellow conducted a class in banditry Friday night in view of 1,000 persons, and got away with it.

Kahn's Jewelry store on Twenty-second-st was the place, and the time was just the hour when the crowd was leaving the Marshall Square theatre next door.

The student bandits were awkward and their technique was terrible, but despite it all, they escaped with a large part of Albert Kahn's valuable jewelry and much of Albert Kahn's cash.

They used a conspicuous green roadster, which is not the usual thing. They parked in front of the store and entered the place where the proprietor was talking with two customers.

"Stick 'em up," said one student without preliminaries.

The professor registered disgust. "No, no," he said. "It is not yet time to say 'stick 'em up.' Look at all those people outside. They can see right in. Do you want to get arrested, huh? How many times must I tell you to take the men into the back room, out of sight?"

This was done and the robbery consummated. Outside again, the robbers climbed into their car. One of them fired a couple of wild shots as the gears meshed.

"Don't do that," the professorial fellow was heard to scream.

**CONDEMNED MEXICAN
BREAKS OUT OF JAIL**

Pottsville, Pa.—(AP)—Elverez Miguel, 23 year old slaver, shot his way to freedom from the Schuylkill county jail Saturday. A guard, Roy Reeves, received a bullet wound in the leg.

Miguel, a Cuban, was under sentence of death for killing Louis Jacks, 19, his one-time sweetheart, in February, 1928. A stay had recently been granted and his case was to come before the state board of pardons within a few weeks.

Armed with a pistol Miguel demanded that Reeves hand over his keys. Reeves lunged at Miguel and in the struggle the guard dropped with a bullet in his leg. Advancing to the door, Miguel overpowered another guard and fled.

**2 Children Are Held As
Looters Of Racine Store**

Racine—(AP)—The burglary of Mangel's store on Main-st. just two blocks from the police station was revealed Saturday in a police report as the work of two juveniles, "Raf" and "Joe" just a few years removed from the cradle.

A 12-year-old girl and her 7-year-old brother were held as the perpetrators of the bold robbery executed with the finesse of veterans under the cover of darkness Thursday night. Their father was in jail charged with contributing to their delinquency, following recovery of the stolen goods in the attic of their home. He was going to return it, he told police.

Mangel's store, which caters to milady's dress needs, was burglarized at 9 o'clock Thursday night. More than 150 dresses and other clothing to the value of \$3,000 was reported stolen. Police found the rear door which was barred had been smashed and police were mystified as to how entrance was effected. The space between the bars apparently was not sufficient to permit a burglar to squeeze through.

Search of the ransacked store revealed one clem—a pair of mittens

**U. S. PRAISED
BY COUNCIL AT
GENEVA MEET**

**League Group Tries to Open
Way for Nation's Entry
Into World Court**

Geneva—(AP)—An extraordinarily impressive manifestation of the high place held by the United States in international life characterized Saturday's public session of the council of the league of nations.

Every member of the council, in approving a resolution that the committee of experts who will shortly consider revision of the world court statutes take up the question of the accession of the United States to the court, emphasized the importance to the world of American entrance into the tribunal.

After reading a prepared report and resolution, Sir Austen Chamberlain, the British foreign secretary, called particular attention to the pleasant references to the "doubtless at times perplexing and difficult" work of the council contained in the American note of February which reopened negotiations for American accession to the court. He voiced his conviction that every member of the council would observe this sympathetic declaration with satisfaction.

HALL CROWDED

Every chair in the council chamber was occupied and hundreds of persons stood in the doorways eagerly catching all the speeches.

The proceedings opened with Sir Austen reading a report indicating that the British government had received the note from Secretary of State Kellogg relating to American accession and that other signatories of the court protocol had received a similar note. He remarked that Mr. Kellogg's invitation related particularly to the reply made to the note of 1925 by 24 governments, growing out of a conference held at Geneva.

The British government, said Sir Austen, has observed with satisfaction that further informal exchanges of view such as contemplated by the Geneva conference ought to lead to an agreement satisfactory to all parties.

**DRY AGENTS NAB MAYOR
AND SCORE SALOON-MEN**

Las Vegas, Nev.—(AP)—The mayor, police commissioner and more than 20 proprietors of "soft drink" places here were under arrest Saturday charged with violating the federal prohibition law.

Federal prohibition agents led by United States Marshal J. D. Fulmer of Carson City, swooped down on the city Friday, making the arrests in secret indictments returned at Carson City the night before. Mayor Carson City the night before. Mayor J. C. Hesse and Police Commissioner Roy Neagle escaped incarceration by posting bonds of \$5,000 each. They and their alleged conspirators were ordered to appear in Carson City for arraignment March 18.

Neither the mayor nor the police commissioner would comment upon their arrests. Reports were current that two federal agents had posed here as real estate men and had obtained the evidence upon which the indictments were made by the federal grand jury.

**Lindy Again
Maps Trail
For Airmail**

**Files from Mexico City to
Brownsville, Texas, Over
New Route**

Brownsville, Tex.—(AP)—Col. Charles A. Lindbergh, inaugurating the Brownsville-Mexico City airmail service, hopped off from the Valbuena air field at 7:56 Saturday morning. (9:56 Appleton time.)

The Colonel's route was to carry him over parts of the states of Hidalgo, Vera Cruz and Tamaulipas most of which have not been seriously affected by the revolution.

The Colonel's right arm, injured in a crash with his fiancée, was freed from sling and bandages and he expected an easy hop to Brownsville Saturday and back Sunday for continuance of his visit to Miss Anne Morrow.

The schedule called for arrival at Brownsville at 1 o'clock Saturday afternoon with a possible stop at Tampoco.

Passengers selected included officers of the Mexican Aviation company and officials of the postoffice department, and several Mexican newspapermen. Alfred Kent of the Mexican Aviation company was in charge of a companion plane.

Mail aboard the plane should reach Chicago Sunday morning and New York Sunday evening. The new service will be the only direct airmail contact with the United States. A previously inaugurated service by way of Laredo has been shortened to include a rail lap between Laredo and Sanlito.

The takeoff was witnessed by about 200 persons. Regular airmail by way of Brownsville is planned by the Mexican Aviation company using two tri-motor Fords.

**FEDERAL DRY AGENTS
NAB 9 AT WAUKESHA**

Waukesha—(AP)—Nine men were arrested when a squad of federal dry agents from Milwaukee raided six places in the vicinity of Rethayden, the veterans' hospital here, Friday night. The raids came as a result of scores of complaints that liquor was being sold to patients at the hospital.

Word that "the feds are coming" was received at some saloons before the raiders reached here. As a result, a number of locked doors were encountered.

The place raided were: Joseph Raschl, proprietor, and Mike O'Connor, bartender; Hromas Hromopoulos, Fred Romer, proprietor and Henry Vek, bartender; Fred Allen; Leonard and Mike Marica and Tony Patinos. The men were to be arraigned before United States Commissioner H. L. Kellogg Saturday.

**TWO MORE COUNTIES
ORDERED QUARANTINED**

Madison—(AP)—Two more counties were quarantined Saturday by the state livestock sanitary board because of rabies outbreaks among dogs. The two new counties are Richland and Vernon, bringing the total of quarantined counties to nine.

Previously quarantined are Afton, Racine, Ozaukee, Washington, Kenosha, Crawford and Iron.

**WIDE FIELD TO
BE COVERED IN
HOOVER PROBE**

**President Finds First Week
in Office Full of Difficult Problems**

Washington—(AP)—President Hoover Saturday came to the end of his first working week at the nation's chief executive with definite plans in mind for a far-reaching investigation to be made by his law enforcement commission.

In addition, despite the distractions presented in the foreign field by the possibilities of international complications stirred up by a full sized Mexican revolt, the president has given thought to immigration and the problems of federal employees and had seen dozens of callers on other questions of domestic concern.

The full scope of the investigation of law enforcement contemplated was disclosed Friday when in reply to questions of press correspondents the president said "it is intended to cover the entire question of law enforcement and organization of justice."

"It will also naturally include consideration of the method of enforcement of the eighteenth amendment and abuses which have grown up together with the enforcement of the laws in respect to narcotics, to immigration, to trade restraint and every other branch of federal government law enforcement," he said.

ORGANIZE MACHINERY

"The first step in law enforcement," he added, "is adequate organization of our judicial and enforcement system."

In critically considering the entire federal machinery of justice, the president said the purpose and scope of the commission would be to study the redistribution of its functions, the simplification of its procedure, the provision of additional judicial tribunals, the better selection of judges and "the more effective organization of our agencies of investigation and prosecution."

The Mexican situation occupied the attention of the cabinet Friday while stray bullets were whistling across the border at El Paso.

Questions concerning changes to be made in government personnel, the president said comparatively few were contemplated. He added that he proposed to retain as many as possible of those "who have given honest and zealous service."

OTHER QUESTIONS

The legislative program of the coming special congressional session and the question whether farm relief legislation should originate in the house or senate was placed before President Hoover Saturday by leaders of both branches of congress.

Chairman McNary of the senate agriculture committee, and Chairman Snell of the house relief committee, were called at the White House to ascertain Mr. Hoover's views, and it developed that both house and senate propose to have a farm bill ready for consideration when the special session convenes on April 15.

Chairman Snell said that as drawn up at present the legislative program of the house is the first of all farm relief, then the tariff, and later, if a measure is passed by the senate, congressional reorganization.

He predicted that the house would dispose of farm relief within a week.

Chairman McNary said he expected his committee also to have a farm bill drawn up by the beginning of the special session and he predicted, too, that his branch of congress could dispose of it in a week. The Senator said that hearings would be initiated shortly with the bill which he introduced at the last session of congress as a basis of discussion.

He predicted that the house would dispose of farm relief within a week.

Chairman McNary said he expected his committee also to have a farm bill drawn up by the beginning of the special session and he predicted, too, that his branch of congress could dispose of it in a week. The Senator said that hearings would be initiated shortly with the bill which he introduced at the last session of congress as a basis of discussion.

**WIDE FIELD TO
BE COVERED IN
HOOVER PROBE**

Washington—(AP)—President Hoover Saturday came to the end of his first working week at the nation's chief executive with definite plans in mind for a far-reaching investigation to be made by his law enforcement commission.

In addition, despite the distractions presented in the foreign field by the possibilities of international complications stirred up by a full sized Mexican revolt, the president has given thought to immigration and the problems of federal employees and had seen dozens of callers on other questions of domestic concern.

The full scope of the investigation of law enforcement contemplated was disclosed Friday when in reply to questions of press correspondents the president said "it is intended to cover the entire question of law enforcement and organization of justice."

"It will also naturally include consideration of the method of enforcement of the eighteenth amendment and abuses which have grown up together with the enforcement of the laws in respect to narcotics, to immigration, to trade restraint and every other branch of federal government law enforcement," he said.

ORGANIZE MACHINERY

"The first step in law enforcement," he added, "is adequate organization of our judicial and enforcement system."

In critically considering the entire federal machinery of justice, the president said the purpose and scope of the commission would be to study the redistribution of its functions, the simplification of its procedure, the provision of additional judicial tribunals, the better selection of judges and "the more effective organization of our agencies of investigation and prosecution."

The Mexican situation occupied the attention of the cabinet Friday while stray bullets were whistling across the border at El Paso.

Questions concerning changes to be made in government personnel, the president said comparatively few were contemplated. He added that he proposed to retain as many as possible of those "who have given honest and zealous service."

OTHER QUESTIONS

The legislative program of the coming special congressional session and the question whether farm relief legislation should originate in the house or senate was placed before President Hoover Saturday by leaders of both branches of congress.

Chairman McNary of the senate agriculture committee, and Chairman Snell of the house relief committee, were called at the White House to ascertain Mr. Hoover's views, and it developed that both house and senate propose to have a farm bill ready for consideration when the special session convenes on April 15.

Chairman Snell said that as drawn up at present the legislative program of the house is the first of all farm relief, then the tariff, and later, if a measure is passed by the senate, congressional reorganization.

Model Home Opening Is Set For March 30

Colored Fixtures In Kitchen and Bathroom Feature Model Home

Believing that this is an age of color; that color in the world out-of-doors affects one's moods and outlook upon life; that properly employed within the house, it has a like effect; the builders of the Post-Crescent Model Home have chosen Kohler colored bathroom and kitchen fixtures to make the kitchen, bathrooms and lavatory rooms of charm and artistry.

Recent years have seen a remarkable increase in the use of color in interior decoration—and not alone for its mere decorative value, but for its effect upon happiness and well-being.

Full advantage of this color trend has been taken in the Model Home. Bathroom, toilet, and washbowl in one bathroom are of an exquisite spring green. A warm tan predominates in the changeable colored tiles of the floor and walls. Fixtures in the other bathroom are autumn brown contrasting with dark green tiles. The downstairs lavatory fixtures are green and brown is most evident in the multi-colored tiles.

Various accessories match the colored fixtures. Towel racks, tumbler holders, soap dishes, toothbrush holder, and washbowl in one bathroom are of an exquisite spring green. A warm tan predominates in the changeable colored tiles of the floor and walls. Fixtures in the other bathroom are autumn brown contrasting with dark green tiles. The downstairs lavatory fixtures are green and brown is most evident in the multi-colored tiles.

There are three improved features of the Kohler electric sink installed in the kitchen of the Post-Crescent Model Home.

In the first place, the sink itself is the pan, it holds the water. For a long time kitchen sinks have been white work benches. But the actual operations were largely done in other utensils—pans—placed upon the sink. A new Kohler improvement, the Duostrainer, with its cuplike strainer and its metal drain control

No Reason To Leave Home To Seek Amusement

Long and loud have the moralists bewailed the advent of the furnace and the vanishing fireplace. Formerly, they argued, the family gathered about the hearth which was the center and the magnet of their life. Because there was no steam heat diffused through the entire room, because the warmth was all with in a small radius of the fireplace the family was drawn physically close together and from this close physical contact grew their close spiritual one.

Heat alone will never draw a family together again. The time is past when fire is the all-important, primitive necessity it once was. Now in the better class homes, anyway, heat is more like air—something free that comes for the twist of a lever or the pressing of a button. In the Model Home it is turned on by the pressing of a button of the Thermostat which controls the gas boiler in the basement.

No, you can't expect a modern family to be drawn together around a roaring fire. The Model Home has a much more interesting means of keeping the modern, family home nights and that is by the recreation room with its dancing floor. Every room has a distinctive color or scheme peculiar to itself and yet in harmony with every other room in the building the rooms differ from each other and still there is no jarring contrast, just a pleasing harmony throughout.

The living room walls are finished in a restful pleasing buff that is a delightful combination with the oak woodwork and the dining room next to it is a combination of buff and green that is different from the living room and yet complementary to it. The way it is all through the house. Every room is different and yet when one goes from one to another room there is something about the transition that is easy and graceful.

Tile, carpet and Cellzed oak block floors also seem to complement each, providing variety and at the same time a suitability for their purpose but without sharply calling attention to them. The floors were selected as much for their utility as for their beauty. The living room, a splendid spacious well lighted room commanding a beautiful view, will be carpeted, the library and dining room floors are covered with Cellzed oak blocks, the entrance hall with tile and the kitchen with a rubber tile that not only is easy and restful but exceptionally quiet.

The housewife who visits the model home no doubt will find as much or more to attract her in the kitchen than anywhere else in the house, unless it be the bathrooms. The McDougal unit, the Kelvinator electric sink which takes the drudgery out of dishwashing, and the sensible and step-saving arrangement of these helps for comfort must arouse the enthusiasm of every visitor.

The finished bathrooms, with the harmonious blending of colored fixtures and colored tiles are about the last word in modern building. No

Decorators, Furnishers Will Finish Their Work Within Next Three Weeks

The Appleton Post-Crescent Model Home on Opechee-st, under construction for nearly eight months, will be formally opened for inspection on Saturday, March 30, it was decided after a conference with the decorators and furnishers who soon will put in the finishing touches. The home will be open daily from 2 to 5 P. M. for visitors until the afternoon of Friday, April 12.

The home has been closed to visitors for several weeks because the decorators have been at work and the newly painted woodwork and finished floors might be damaged.

Persons who visited the home before the decorators started their work and before the kitchen and bathroom fixtures were installed will be amazed at the transformation that has been brought about. The Model Home then was notable primarily for its architectural design and for construction, but now it is a revelation in beauty of decoration and finish.

The walls of tinted plaster, the piano finish oak floors, the careful matching of colors in walls, floors, woodwork, and drapery hardware create an effect that is not only beautiful but amazing because it illustrates what can be done in building and furnishing a home if one will give careful study to it.

Every room has a distinctive color or scheme peculiar to itself and yet in harmony with every other room in the building the rooms differ from each other and still there is no jarring contrast, just a pleasing harmony throughout.

The living room walls are finished in a restful pleasing buff that is a delightful combination with the oak woodwork and the dining room next to it is a combination of buff and green that is different from the living room and yet complementary to it. The way it is all through the house. Every room is different and yet when one goes from one to another room there is something about the transition that is easy and graceful.

The finished bathrooms, with the harmonious blending of colored fixtures and colored tiles are about the last word in modern building. No

Last Model Home Page in Post-Crescent

The Post-Crescent Model Home, now closed to visitors while the decorating is in progress, will be formally opened on Saturday, March 30, and will be open for inspection until Friday, April 12.

This is the last Model Home page in The Post-Crescent before the formal opening.

Latest Style In Hardware For Draperies

No single furnishing or decorative feature of the Post-Crescent model home has received more enthusiastic and favorable attention from visitors than the window treatments, utilizing as they do the latest styles in modern drapery hardware to achieve new and drastic effects.

Drapery hardware for the entire home was made by the Kirsch Company of Sturgis, Mich., and purchased from the Bretschneider Furniture Co. It has been selected with special care, to emphasize the importance of this oft-neglected feature as an element in the general decorative effects.

The vogue of decorative hardware for windows and doors, though a comparatively recent development, is now almost universal. The Kirsch Company, whose products are already in use at a hundred million windows, has originated an infinite variety of styles and color combinations suited to windows of every type, and to every decorative scheme.

Drapery hardware, according to Kirsch style experts, should be selected first, and drapery treatments adapted to it. In this way the most effective color harmonies may be assured, and home owners can make certain that the windows will be in keeping with the other furnishings of any room.

Naturally, the large number of widely differing interior decorating treatments now in vogue demands a corresponding variety of hardware for selection. To meet this need, Kirsch has created drapery hardware in many styles and in almost countless color limitations—ranging from the popular flat extension scheme, to the most elaborate and costly designs in wood

Fixtures From Finkle Co. Go In Model Home

Perhaps no part of the furnishings of a house attract such immediate attention as the lighting fixtures. They are as inescapable as the walls themselves, yet they must appear to an integral part of the room and at the same time must have an individuality that sets them apart from the rest of the furnishings.

The Post-Crescent Model home is equipped throughout with Model Electric Co. fixtures. The fixtures were chosen to blend with the architecture, the decorative scheme and the type of room.

The lantern that hangs in the front entrance hall has all the appearance of having been specially designed for that particular location or the entrance hall was planned for the light, they are that much a part of each other. While the lantern is not obtrusive yet it is bound to attract attention for its sheer beauty and artistry.

The same thing can be said of the candleabra in the dining room, the ceiling lights in the sleeping rooms and the fixtures in the living room. They reveal careful attention to this most important phase of home building.

The sleeping room fixtures are delicately fitted to blend with the walls and ceiling and living room lights, of antique design and finish, are a lesson in harmony.

The Post-Crescent's Model Home is being erected with the cooperation of the following manufacturers, contractors, equipment and building supply dealers:

Constant Heat Is Assured By Gas Furnace

A recent survey made by one of the heating magazines discloses that there are now in the United States approximately 120,000 homes which are heated by means of gas fuel. In practically every community where gas supply is available, the number of heating installations is rapidly increasing. Many gas companies have encouraged this method of heating by offering special rates. The sale of gas is similar to the sale of other products, it being possible usually to lower the price as the quantity involved increases.

In purchasing a gas boiler or furnace, one should be selected which has been approved by the American Gas Association Test Laboratories. This approval guarantees the rating of the boiler and assures the user that the capacity stamped on the front of the boiler can be readily obtained under any normal conditions of gas service.

An interesting chart in an article on gas heating which appeared in a recent magazine, showed the temperature taken in the living room of a home heated by an automatic gas boiler. The temperature record is for 48 hours. The line that showed the temperature for the second day coincided so nearly with the line that showed the temperature for the first day, that one can hardly observe there are two lines. The fact that this record, taken on two successive days, coincides so accurately is more remarkable when one considers that the outside temperature varied 20 degrees on the two days. For both days the night setting of the thermostat ended at six in the morning at which time the gas burners were turned on automatically. By six thirty, the room temperature had reached 70 degrees, and this temperature was then remained absolutely until eleven in the evening when the night setting permitted the temperature to drop to sixty degrees, which it maintained uniformly through the night. The Post-Crescent model home is heated with a Mueller Gas Era Boiler installed by Ryan and Long and the temperature of the home is automatically controlled by a Minneapolis Heat Regulator.

Spector Puts Silver Table Ware In Home

A collection of early American silverware will be put on display by Maurice Spector at the Appleton Post-Crescent Model Home on the opening day. Included in the collection will be several very rare pieces which have been borrowed from the factories for display purposes only.

The dining room table will be completely pointed for a formal dinner, according to the manner approved by Miss Elsie de Wolfe, authority on correct table appointments. All table flatware and hollow wear will be of sterling silver in early American styles.

Toilet articles—mirrors, combs, brushes, boudoir clocks, in early colonial styles, also will be displayed by Mr. Spector.

Early American silverware is very popular right at this time, but inasmuch as there are only one or two manufacturers in the country who produce it, it is very rare.

MENASHA WINS FROM SHAWANO IN FAST GAME

Fans See Four Basketball Games as Tournament Days Approach

NORTHEASTERN LEAGUE
Menasha 21, Shawano 15.
ELIMINATION GAMES
Oakfield 35, New Holstein 21.
Lomira 34, Berlin 12.
Kaukauna 20, Berlin 17.

Menasha—Taking the floor after three elimination games had been played, Menasha and Shawano high school basketball teams played a fast, clean battle, which was nip and tuck for the first three quarters. Menasha then forging ahead for a comfortable margin and a 21 to 15 win in the final game before the district meet.

It was all Shawano in the first quarter, Menasha seeing to have trouble finding the hoop. Two field goals and a free toss by the visitors gave them a 5 to 0 lead. Vetter then put the home team in the running with a field goal, followed by a free throw for Shawano, but Lanzer brought the score a little closer with a field goal and the half ended 6 to 4 in favor of the Northerners.

Vetter started the second half with a free toss and Shawano followed with a free throw, Vetter then dropped in a field goal and Webster added a pair of free throws to put the home team in the lead for the first time in the game. Shawano missed two free throws, but made another as the third quarter ended with Menasha holding a 9 to 8 lead.

In the last quarter Menasha broke through the Shawano defense time after time and piled up 12 points in the final quarter to 5 for Shawano. Webster started the scoring with a field goal and Becker followed with another. Shawano came back with two free throws, but Massay dropped in two field goals and Webster added another. Shawano scored a free throw in two tries and then added a field goal. Becker finished the scoring with two free throws just before the game ended.

OAKFIELD-NEW HOLSTEIN
The first elimination started at 6 o'clock. The two teams played a great game the first half, the score being close throughout and finally ending in a 14 to 14 tie at the half. Oakfield however, played a superior brand of ball in the second half and piled up a substantial lead, finishing strong with a 35 to 21 lead and thereby earning a place in the district tournament.

LOMIRA-BERLIN
The second game of the evening started at 7 o'clock. Lomira was the big favorite among the throng of fans that packed the Buttes des Morts gym to the doors and did not disappoint the fans, giving a display of basketball that kept up, will probably carry them to the semifinals or even to the finals in the tournament. It will be recalled that Lomira proved a sensation last year by reaching the finals after playing an elimination game to get into the tourney. The score at the half was 15 to 8 and ended 34 to 12. Lomira was able to keep Berlin away from the hoop a good deal of the time.

KAUKAUNA-BRILLION
The Kaukauna-Brillion game was probably the most exciting from the view of the fans. It was close all the way and with a little luck near the end of the game on short shots, the Brillion team might have turned defeat into victory. The first quarter ended 7 to 6 for Brillion, Kaukauna took the lead at the half by a score of 12 to 10 and the game ended 30 to 17. Both teams were fast but Brillion made a free throw spelled defeat to the Brillion team.

POUR CONCRETE SOON FOR BRIDGE WALLS

Menasha—Construction work on the concrete forms of the south pit of the new Taylor bridge is progressing so rapidly that N. B. Hogen, superintendent of the Greiling Engineering company, expects to pour the concrete for the walls either Monday or Tuesday. The excavation for the north pit is down several feet in bed rock and blasting is being resorted to daily. According to the superintendent the greatest delay is caused by the blasting of the rock. A reliability in this is completed the work will move along rapidly.

MENASHA WOMAN SEES HOOVER INAUGURATION

Menasha—Word has been received here that Menasha was represented at the inauguration of President Hoover by Miss Edith C. Kleopfel, daughter of Mr. and Mrs. Otto C. Kleopfel, who is on duty at Baltimore, Md. as registered nurse. Miss Kleopfel accompanied William Mitchell of Panama Zone and occupied seats in the first balcony of the United States treasury building.

6 BIRTHS, 6 DEATHS REPORTED LAST MONTH

Menasha—Six births and six deaths occurred here in February, according to the monthly report of Dr. W. P. McGrath, health officer. Only one death was reported. Menasha is free from contagion at the present time.

WIND DAMAGES ROOF OF SCHOOL GYMNASIUM

Menasha—A portion of the gymnasium roof of the new Butte des Morts school building was damaged by the wind Wednesday night. Immediate repairs are being made.

Seen in Capitol as New President is Made

Some of the foremost figures at the inauguration of president Herbert Hoover are picture above. No. 1 is the daughter-in-law of the new First Lady, Mrs. Herbert Hoover, Jr., with the First Lady's granddaughter, Peggy Anne Hoover. The man at the microphone, Graham McNamee himself, as he appeared during the inauguration ceremonies, is shown in No. 2. Next are President and Mrs. Hoover, the center of an admiring throng of Washingtonians. No. 4 shows "Ex-President" and Mrs. Coolidge, just before the inauguration ceremonies began. No. 5 is Major John Coolidge and his fiancée, Miss Florence Trumbull, who were among those present. In No. 6 are pictured two of the gray-clad veterans of the south, who rode in the inaugural parade. They are Major General A. T. Goodwyn of Birmingham, left, and Major General N. D. Hawkins. Goodwyn is commander-in-chief of the Confederate Veterans, and Hawkins is acting adjutant general.

SOCIAL ITEMS AT MENASHA

Menasha—The program of the meeting of the Economics club at the public library building Friday afternoon consisted of "Figures From America's Past," by Mrs. Silas Spengler, and a book review, Andrew Jackson, an Epic in Homespun, by Miss Sallie Pleasants. The hostesses were Mrs. F. S. Durham and Mrs. John Strange.

Miss Emma Grassell will entertain the Third ward Royal Neighbors club next Friday evening at the home of Mrs. Henry Oelke, First-st. Neenah. Games will be played.

Preliminary arrangements for a St. Patrick party Thursday evening, March 21, were made at a meeting of the American Legion auxiliary Thursday evening at S. A. Cook armory. The business meeting will be followed by a program and supper.

Menasha—Nicolet Council No. 1833, Knights of Columbus, initiated eight candidates at its meeting Thursday evening. The ceremony was followed by a talk by the Rev. George A. Clifford, pastor of St. Patrick church.

The Wimdous club held a card party Friday afternoon at Masonic hall. Bridge was played and honors were won by Mrs. H. O. Haugh. Mrs. Collip, who is about to leave the city, was presented with a gift. The hostesses were Mrs. Herbold, Mrs. Hutchins, and Mrs. Gear.

CITY ASSESSOR AGAIN CONFINED TO HIS HOME

Menasha—Herman Luckenbach, city assessor, who has been in poor health for the greater part of the winter, again is confined to his bed. He spent the early part of the winter receiving treatment at St. Elizabeth hospital and shortly after his return submitted to an operation by a Chicago specialist at Chicago. For a time after his return he was able to be about his home.

THIRD MAN IS SEEKING CITY TREASURER'S JOB

Menasha—Nomination papers for John Schreiber for city treasurer were placed in circulation Friday. There are three candidates in the field. Carl A. Heckrodt, incumbent, John Jankowski and Mr. Schreiber. Henry Knoche, Third-st. has entered the race for alldman in the Fourth ward in opposition to Alderman Philip Michalkiewicz, candidate to succeed himself.

ROYER, INJURED IN ACCIDENT, RECOVERING

Menasha—Lee Royer, manager of the local office of the Western Union Telegraph company, who was injured in an automobile accident near Whiting airport on federal highway 11 several weeks ago and who has been at Theda Clark hospital ever since, is commencing to show improvement and will recover. His father who has been with him since his injury has returned to his home at Madison.

VOCATIONAL SCHOOL CLOSES THURSDAY

Menasha—The Vocational evening school which opened Oct. 8, will close its year's work Thursday evening. The attendance was larger than usual this year in spite of the flu epidemic, cold weather and deep snow.

MAN FACING LIQUOR CHARGES VANISHES

Roy Sheerin, Wanted on Dry Court, Can't Be Found by Sheriff's Men

Menash—Winnebago-co. officials declare they have ascertained that Roy Sheerin, whose soft drink parlor at Menasha was raided Tuesday by state men has left the city. Sheerin had been instructed to report in municipal court at Oshkosh Wednesday. He did not do so and the court placed a warrant in the hands of the sheriff's department. It has been learned that the alleged dry law violator went north instead of south when he left Menasha. The state men found a quantity of alleged gin in his establishment.

TWIN CITY DEATHS

GERRIT HELP
Menasha—V. M. Landgraf received a message from Milwaukee Friday announcing the death of Gerrit Heup, former Menasha resident, who at one time was engaged in business with Mr. Landgraf.

Mr. Heup spent the greater part of his life in Menasha, but went to Milwaukee about 12 years ago to make his home. He is survived by his widow; two sons, Cyril of Chicago and Louis of Milwaukee; and one daughter, Mrs. Anna VanAlstyne of Milwaukee. He is also survived by several brothers and sisters. Funeral services will be held at Milwaukee at 9 o'clock Monday morning.

WORKMAN AT BRIDGE IS INJURED BY TIMBER

Menasha—Michael Dasher, an employee of the Geilling Engineering company of Green Bay which is building the new Taylor bridge, was struck in the side by a heavy timber Friday as he was being lowered into the pit on the north side of the government canal. He was working on the cofferdam at the time. His injuries are not serious. He was conveyed to Theda Clark hospital.

HOLD CLINIC THURSDAY FOR LITTLE CHILDREN

Menasha—Another clinic for children of pre-school age will be held at Rembert school gymnasium Thursday. The examining physician will be Dr. Margaret J. who will be assisted by members of the Visiting Nurse association.

MENASHA PERSONALS

Menasha—C. W. Laemmrich was at Oshkosh Saturday on business. Mr. and Mrs. Cyril Peerenboom have gone to the Pacific coast. Before their return they will visit Portland, Tacoma Seattle San Francisco and Los Angeles.

Mr. and Mrs. B. D. Smith, Milwaukee, are guests of Mr. and Mrs. W. I. Masters at hotel Menasha. Mr. and Mrs. H. E. Arno are planning to attend the eighty-seventh birthday anniversary of Martin Arno at Berlin, Wis. next Sunday. Mr. Arno is a former Menash resident, a veteran of the civil war.

NEENAH PEOPLE ON WAY BACK FROM WASHINGTON

Neenah—E. E. Sennsenn, Postmaster James Fritz, Du Dunham, Mrs. Helen Stuart, Mrs. L. J. Pickett and Col. P. J. Scheller, who have been in Washington, D. C. attending the inauguration activities are expected to arrive home Sunday morning. Col. Scheller took an active part in the program as a member of Gov. Koehler's staff.

MENASHA BOWLING

HENDY RECREATION LEAGUE
Menasha—Highway Filling Station team and Menasha Cleaners of the Hendy Recreation league went on a rampage Friday night at Hendy recreation alleys and rolled some of the highest games of the season. Members of several other teams of the league also rolled above the average. High game, 289, was rolled by R. Rombeck of the Menasha Cleaners who also rolled high series, 675. His individual games were 289, 194 and 192. Peter Kraus of the Highway Filling Station rolled a series of 656 and Krysak of the same team one of 667. The total pins rolled by the Filling Station was 3079.

MENASHA MAN FACING CHARGE OF ASSAULT

Menasha—Charles Grade was arraigned before Justice F. J. Budney Saturday morning charged with assault and battery. Frank Clark signed the complaint. The trial was set for Saturday, March 16. Grade was released on his own recognizance.

NEENAH PERSONALS

Neenah—Howard Jersid and Abe Stone went to Madison Saturday to see the Chicago-Wisconsin basketball game.

Harry Kahler of Appleton was a business visitor here Saturday. Mrs. Mary Tratz is at Theda Clark hospital for treatment.

Mrs. Daniel Romberg, route 9, submitted to a minor operation Saturday morning at Theda Clark hospital. Mrs. Kate Lawrence of Waukesha is spending a few days with twin city relatives.

LAWRENCE PROFESSOR TO DISCUSS CHINESE

Neenah—Dr. J. R. Denyes of Lawrence college, will give an illustrated lecture on "The Chinese as They Are at Home," Sunday evening at the Presbyterian church. The following Sunday evening the Ripon college Glee club will give a concert at the church.

Among the week's activities will be Mothers' circle which will meet Wednesday afternoon. The entertainment committee for this meeting will be Mrs. A. Gressler, Mrs. William Oelke, Mrs. Frank Putz and Mrs. E. J. Schroeder.

Planning Commission
Will meet next week

Neenah—The city planning commission will meet Tuesday evening to discuss a permanent zoning ordinance to be adopted by the city. At present the city is governed by a temporary zoning ordinance which not long ago was held as not favorable by a justice in a case where an undertaking was conducting business in a residential district. A complete rearranging of the zones is expected to be made and presented to the city council for adoption.

Candidate for Office
Menasha—A. E. Finch, 751 First-st., has announced himself as a candidate for alderman in the Fifth ward.

NEENAH DEFEATS WATERTOWN QUINT EASILY, 24 TO 6

Last Year's State Champions no Match for Jorgenson Basket Tossers

Neenah—The high school basketball team closed its regular season Friday evening by defeating Watertown, 24 and 6 before a crowd of people which filled S. A. Cook armory.

The Watertown team came here with the services of only one of last year's championship players, Hady, a forward, who played sub then. Hady was the team's high scorer this year but was held scoreless Friday night. The game was fast and although the visitors were of fair calibre, they could not stop Neenah, which led 8 to 2 at the quarter, 14 to 2 at the half and 22 to 6 at the third quarter. Early in the game Ehlers, one of Neenah's best players wrenched his ankle and had to be carried off the floor. He was replaced by Grogan who played the position well. Coach Ole Jorgenson gave his entire squad a chance to play.

Bell started at forward and played a fast round for two baskets. Scheller, as usual, was the high scorer with nine points on four baskets and one free throw; Johnson tied with Bell with two baskets. "Speedy" Gaertner played his usual fast floor game, being everywhere at once, and sank a pretty one in the second quarter. Stacker and Hahl were the only other players who made points, the others nevertheless playing fast ball. Biefeld and Kuesel were the only Watertown men to score, the former securing three free throws and the latter one each of baskets and free throws.

Neenah's next game will be Thursday afternoon when it will play Oakfield in the annual Northwestern Wisconsin interscholastic district tournament at S. A. Cook Armory.

FRATERNAL RESERVE TO HOLD INTER-CITY MEET

Neenah—An inter-city meeting of Fraternal Reserve association councils of the Fox River valley will be held March 15 at Danish Brotherhood hall. Members will attend from Appleton, Oshkosh, Neenah and Menasha. This will be a challenge gathering in which the Oshkosh council will endeavor to have more members present than the combined number from Neenah, Menasha and Appleton. The Oshkosh girls' drill team will have charge of the initiation of a class of candidates. A box social will follow the work.

EAGLE COMMITTEE FOR CONVENTION APPOINTED

Neenah—Anton Peterson, George Blohm, Harry Korotev, Henry Kohfeldt and Stephen Heup have been appointed on a committee of Ladies to make arrangements for the Neenah aerie's part in the state convention next June at Sheboygan. It is intended to enter a marching club to be headed by the drum corps. The aerie's membership is more than 700 and it is the intention of the committee to enlist the entire membership for the parade.

ALDERMANIC RACE IN SECOND WARD TIGHTENS

Neenah—Opposition has arisen in the second ward for alderman. Lawrence Bellin on Saturday morning took out nomination papers for the office. Mr. Bellin formerly was a member of the police force. He will oppose Charles Ehlerlein, present alderman in that ward, who also is seeking reelection.

CITY CREWS STILL BUSY SHOVELING AWAY SNOW

Neenah—The city's street crew is still removing snow from the sides of streets in order to clean out the curbs so the gutters can be opened to allow the water to flow to the sewers when the spring thaw arrives. Hundreds of loads of snow have been carted to the river. All the principle streets have been cleared of snow. Some of the streets are in bad shape owing to the deep ruts in the ice which makes driving hazardous.

DOBBERTIN HOME IS THREATENED BY FIRE

Neenah—The fire department was summoned at 9 o'clock Saturday morning to the Charles Dobbertin home on Nicolet-blvd where a blaze had started in the chimney. Little damage resulted from the fire.

GIRLS' BASKETBALL GAME IS POSTPONED

Neenah—Bad roads prevented the Waukaupa high school girls' basketball team from getting here Friday night for a game with the Young Christian association team at the club gymnasium. The game will be played later.

The first steamboat built at Cinnati was launched in 1816. She was named the Vesta.

NEENAH SOCIETY

Neenah—Invitations have been issued by Misses Ruth and Eudora Young for a 1 o'clock luncheon Saturday, March 16, at the Sign of the Fox.

The Eagle Auxiliary entertained a large group of women Thursday afternoon at the aerie hall. Cards were played. Prizes in scholarship were won by Mrs.

LATEST NEWS OF THE AUTOMOBILE INDUSTRY

CHEVROLET WILL INCREASE OUTPUT

Plan to Push Production Up to 1,350,000 Units, Officer Reports

Detroit—That there will be an upward revision of Chevrolet 1929 production schedule, calling for an output of 1,350,000 units instead of the 1,250,000 quota originally established, was indicated today by R. H. Grant, the company's vice-president in charge of sales, who has just returned here after 6 weeks spent conducting dealer meetings in the northern and western sections of the country.

This alteration in production plans, Mr. Grant explained, was considered only after very thorough surveys of business conditions undertaken by him and other Chevrolet officials. In the course of this year's dealer meetings, officials divided into three groups and visited 37 metropolitan centers. Exhaustive studies of sectional conditions were made possible by the cooperation of thousands of dealers, bankers and businessmen.

"At the time the new 6-cylinder car was announced, we predicted a volume of 1,250,000 units for 1929," Mr. Grant said. "As a result of my visit to 13 widely scattered sections and similar visits to other sections by my associates I feel that we are warranted in raising that figure to 1,350,000. Beyond that mark we cannot go with our present facilities but these can be quickly increased if the demand justifies."

"While we feel that there will be a ready market for this huge volume of cars and trucks they will be produced only if they can be absorbed in a natural way. We do not want in any way to crowd dealers or overload them. The dealers however seem to feel that this great volume will not be difficult to handle."

Mr. Grant seemed highly enthusiastic in his forecast for continued prosperity. Everywhere he traveled, he said, indications pointed to a year of unusual promise. "The farmers of the northwest, due to ideal weather conditions, which have prevailed throughout last fall and during the winter, anticipate bumper wheat harvests. Increased wage scales in the Butte mining districts together with the best outlook for the copper industries in years, impressed me forcefully. Since the establishment of a Chevrolet Zone Office at Butte, two years ago, the volume of our sales has been more than doubled, and the company now contemplates the establishment of a new Parts Depot and Warehouse at Great Falls to be opened probably in July."

"In Portland and Seattle we found business generally on the up-grade. Present activity in San Francisco and its wide trading area throughout northern California seems to auger a year of unusual prosperity. Building permits in Los Angeles during January were eight percent greater than during the same month last year and the trading in building materials is consequently brisk. Bank clearings during January passed the billion-dollar mark surpassing all monthly records."

Other Chevrolet officials who were in charge of dealer meetings at various times in other sections of the country expressed keen optimism over the outlook. H. J. Klingler, general sales manager, M. D. Douglas and D. E. Ralston, assistant general sales managers, joined with Mr. Grant in declaring that the demand for the new car will far exceed preliminary estimates and make necessary a measurable upward revision in the company's production program for the year.

FORD CAR MAKES 760 MILES IN 16 HOURS

From Mitchell, in central South Dakota, to the Chicago loop in 16 hours and 50 minutes with two stops for meals and several for gas and oil is an interesting record. The distance is 670 miles. It was made in the time stated, or fifteen hours of driving time by Leo J. Rozum of Rozum Motor company, Mitchell, South Dakota. The car was a model A Tudor, and happened to be the first car that any dealer received from the Twin City plant of the Ford Motor company. The reason for the quick trip was that a physician and an insurance man wanted to get to Chicago in a hurry. The car had 32,000 miles on the speedometer when it started. Only one quart of oil was added during the trip.

DIAMONDS WORK FOR NASH PRECISION

Depositing the Nash factory jewels each evening approaches a ceremony. These stones, less ornamental but more useful than the jewel case variety, are checked out and into the factory vaults with the greatest care. Here several Nash workers depositing their precious diamond tools after their stones have completed their day's job of ten-thousandth-inch precision cutting.

According to Mr. E. Hilligan, of the Appleton Nash Company, 527 W. College Ave.

REO URGES THRIFT AMONG ITS EMPLOYEES

Banks and Benefit Associations Are Conducted for Workmen

The Reo Motor Car Company, through its Welfare Department, is doing everything possible to encourage thrift on the part of the employees at its factory in Lansing, Mich. At present there are nearly 900 regular savings accounts deposited in a local bank, the total of which reached, at the end of 1928, close to \$100,000. In addition, a Christmas Savings Club, with 812 members, had accumulated deposits of \$75,000 by the middle of last December.

There is also available to Reo employees a loan fund which dispenses loans of not more than \$100 for a period of 90 days. During the past year 2,336 loans totaling \$124,744.66, were made, many of them being requested for the purpose of making initial payments on homes, making up back payments and for the building and repairing of homes.

The Reo Benefit Association, which was organized in 1914, has 5,386 members. Employees whose wages are paid more frequently than once a month pay monthly dues of ten cents, and those on a monthly basis pay advance annual dues of \$3.20. The Association was formed to create a fund for the aid and relief of members in case of disabling sickness or accident, and the payment of death benefits. Upon the death of a member \$150 is paid the beneficiary, and \$50 is added if the member belonged to the Association for five years or longer.

As the Reo Motor Car Company has for several years been donating \$250 to the beneficiary in case of the death of a member, and \$300 if his membership has extended more than five years, the total benefits paid for the death of a member are either \$400 or \$500, according to his term of employment.

As an aid to raising funds for the Association, the Reo Benefit Store, where members may purchase groceries, candy, tobacco, etc., has been established.

MILLER ANNOUNCES NEW LINE OF TIRES

Medalists Will Have Extra Heavy Tread and Withstand Heavy Driving

The Miller Rubber Company has announced production of a new line of moderately priced balloon tires, with extra thick tread and deep cut tread design, built to withstand the demands of modern driving conditions.

This line of tires, which will be known as the new Medalist, has a particularly snappy, high-class appearance, combined with excellent wearing qualities which appeal to the motorist who drives his car only moderate distances, and who does not wish to invest in tires that give such extreme mileages as the regular Miller Geared-to-the-Road or Deluxe lines.

The tread design is new and distinctive, very deep, and with an abundance of rubber to maintain its anti-skid features throughout the life of the tire. Its long, heavy sides give ample protection to side walls in rough and rutty roads.

Through depth and design of the tread the safety factor has been emphasized, with the added assurance of maximum traction, even on wet or snowy roads, ever obtained in a tire of its price range. In modern traffic conditions where quick starting and stopping, and high speeds are essential, this factor gives the driver a decided advantage.

Miller announces that the new line is fully warranted against defects in material and workmanship for the entire life of the tire. It has undergone severe tests both in the laboratory and over hundreds of thousands of miles actual road service, in which results have been extremely satisfactory.

While demand for the tire has been heavy, enlarged production schedules have enabled Miller to stock it in all branches and dealers stores, ready for distribution to consumers.

MARMON PRESIDENT HEADS FOR EUROPE

G. M. Williams Leaves on Aquitania for Twenty-sixth Trip Abroad

Marking his twenty-sixth trip abroad, G. M. Williams, president of the Marmon Motor Car Company, sailed from New York at midnight, March 1 on the S. S. Aquitania for an extended trip through Europe, the British Isles and the Scandinavian countries.

Mr. Williams, who was accompanied by Frank L. Hambley, Marmon export manager, will make a thorough survey of business and other conditions abroad which have a bearing on sales of automobiles with a view toward facilitating the distribution and sale of American motor cars.

Landing in Southampton, England, Mr. Williams and Mr. Hambley will proceed to Paris and then motor to Geneva, Switzerland. In a new Marmon-built straight-eight car to attend the International Automobile Show in Geneva beginning March 11 where Marmon will have a specially-arranged exhibit.

Notwithstanding the fact that sales of American automobiles in general, as well as sales of Marmon cars, have increased rapidly in Europe in the last several years, it is Mr. Williams' opinion that there is still room for considerable expansion in the export activities of motor car manufacturers in this country.

In the case of the Marmon company, export shipments have grown steadily and now require a large percentage of the total output of the company. In the last seven months, according to figures prepared before Mr. Williams' departure, a total of 16.2 per cent of the total output of the Marmon factory was sold in foreign countries, not including Canada.

Mr. Williams has a wide knowledge of motoring conditions abroad by virtue of his broad experience in the foreign market in the last seven or eight years. When he first assumed the presidency of Marmon nearly five years ago he made three trips abroad for the purpose of inspecting improvements and advancements made by European manufacturers with a view to incorporating them on cars of his own manufacture.

BUICK ANNOUNCES CAR ENLARGEMENTS

Silver Anniversary Is Blessed With More Power Than Ever Before

With its six-cylinder valve-in-head engine almost one-fifth more powerful than heretofore, the entire chassis of the new Silver Anniversary Buick for 1929 has undergone a commensurate enlargement. This huge power increase, according to E. A. DeWaters, chief engineer of the Buick Motor company, has been obtained largely through refinements in the engine and with virtually no increase in fuel consumption. There has been an 11 percent increase in the piston displacement of the larger engine and a 12 percent displacement increase in the smaller. The balance of the

PATHE PICKS DODGE TO CARRY CAMERAS

Truck Will Carry Sound Equipment, Says Editor Following Tests

The increasing popularity of so-called "taking" or "sound" motion pictures with the necessity for many scenes being made in the open, especially in the case of news' reels, has brought up a new problem in motor transportation. The equipment used in recording sound on film, as used by the majority of companies, is not only very expensive but of a very delicate character.

Microphones, radio amplification tubes, delicate wiring, all either easily broken or put out of working order, must be rapidly transported from place to place in order that big events may be photographed and their accompanying sounds recorded. In order that this equipment may be made a practical mobile unit, it must be housed in a truck which rides easily and operates with a minimum of vibration.

Ray Hall, editor of Pathe News Reel and the new Pathe Sound News, found this problem of transporting RCA Photophone sound recording equipment, valued at \$25,000 a unit, a difficult one to solve in order to have big events of national and international importance "covered" in sound and picture. It was necessary for Mr. Hall to plan for the placing of units in many localities in this country and in foreign lands. Apparatus first sent out on the road simply went dead after a few fast trips in various types of trucks, and effects which never again could be obtained, were lost.

"I immediately decided," said Hall, who is one of the most widely experienced news reel men in the United States, "that we would have to test every type of truck available for this work before we finally placed our working units in the field. Otherwise we might send out sound recording equipment on a hurry call on some big story of international importance, only to lose out on the sound end."

He equipped several different makes of trucks with the sound equipment and sent them over thousands of mile test trips under actual working conditions. In all instances but one, something developed in the operation of the trucks which interfered vitally with the successful operation of the recording apparatus. Either the truck failed to ride lightly or smoothly or tubes broken or they failed to function to suit our delicate task in some other particular manner.

"The only vehicle which, after a run of over a thousand miles through the South, from Washington D. C., (where our men stopped to record President Coolidge in sound and picture) down through Alabama to Florence and Milledgeville, and all our requirements were a Dodge Brothers' 1½-ton truck. At every stop where pictures were made and sound was recorded the sound equipment was in perfect order, primarily due to the easy riding qualities of the Dodge truck and to the lack of that fatal vibration which menaces the life of the amplifying tubes. It is my intention of installing all the Pathe Sound News transportation units in this particular design of motor trucks."

OAKLAND OFFERS TWO DE LUXE TYPES

New Oakland Models Now Number Eight in All, Company Announces

Two de luxe body types are now available in the line of new Oakland All-American Sixes as a result of the recent introduction of a special 1-door sedan. This brings the total number of new Oakland models to eight.

The landaulet sedan, arrival of the Oakland line, with a soft folding top over the rear quarter section, and the special 4-door sedan, offer de luxe equipment and special fittings surpassing in luxury any previous products of the Oakland Motor Car company.

The new special 4-door type is a de luxe edition of the standard 4-door sedan and was built to provide an intermediate step between the standard 4-door type and the landaulet sedan.

The Oakland Company now is offering eight All-American body types at a price range of from \$1115 to \$1375 f. o. b. the factory, and with a capacity of from two to five passengers. Special equipment consisting of six wire wheels and trunk rack, with spares carried in special front fenders, also may be had with any model in the line.

The new models are at the O. R. KloeHN Co., 414 W. College Ave., local Oakland Pontiac dealer.

added power is due to changes in the carburetor and manifold system, redesigning of the camshaft, and provisions of a new muffler in which back pressure is reduced to a minimum.

There has been a marked improvement, too, in the heat control unit built into the fuel intake system. DeWaters pointed out, making the new Buick engine quick to start in the coldest weather. The butterfly valve which controls the flow of heat from the exhaust manifold toward the carburetor and intake now is made of a special heat-resisting metal with a shaft of larger diameter to prevent bending at extreme heat under the pull of its spring.

The vacuum tank has been eliminated in the new models and for it has been substituted a mechanical fuel pump, thereby insuring the proper flow of gasoline to the carburetor under all driving conditions and at all speeds.

Essex Uses Novel Manifold Design

A distinguishing factor in the efficiency of the Essex engine is the proper distribution of the fuel charge and its even distribution to all cylinders. Through the success with which these two factors have been worked out the motor is made to "hit on all six", each cylinder delivering its full and uniform quota of power.

In the Essex this highly desirable end is brought about through a fuel system of advanced, patented design. Gasoline is fed to the carburetor by a vacuum system from the fuel tank. All air, taken into the carburetor, is mixed with the correct proportion of gasoline vapor, is freed from dust, grit and other impurities by an air cleaner. Both the air and the fuel are heated by an exhaust jacket surrounding the carburetor mixing chamber.

Next this preheated fuel, entering the manifold from the carburetor, is swept through a series of curving manifold passages so that the mixture, delivered to each cylinder, is even in richness as well as in quantity. The gases, entering the intake passages, encounter a hot battle-plate which serves the function of stirring them into a greater and more rapid agitation or turbulence, so that still unvaporized fuel particles are broken up for complete vaporization. By the time the mixture passes through the valve openings into the newly modified combustion chambers, vaporization is complete and a dry, homogeneous, correctly compounded mixture is ready to be rapidly and completely exploded by the ignition spark.

According to the manufacturers, the care in the design of the Essex fuel intake system is unique in the Essex price field, it explains further why the motor can develop two and one half times the horsepower for which it is rated.

GRAHAM-PAIGE HAS ANOTHER BIG MONTH

February Is Second Largest Period in History of Organization

Production of the new models of the Graham-Paige line in February attained a total of 10,004, the shortest month of the year having proved to be the second largest in Graham-Paige history, having surpassed the 11,775 cars every month of 1928 except August, at the height of the selling season.

The February total showed an increase of 76 per cent over the preceding month, and is 2 1-2 times the total for the same month last year. The new line of cars is already well on its way to surpass the record of 1928, when Graham-Paige built

73,195 cars to the total value of more than \$80,000,000, a new record in the industry for sales volume attained by any new make of car in its first year. In the first two months of 1929, Graham-Paige production has reached a total that equals the record of last year up to April 11.

A new all-time record for a single day's production was established February 25 when 578 cars were built, or 62 more than the previous high record that has stood since August 11, 1928.

Shipments of cars to Canada showed a notable increase in February, totaling nearly four times the shipments for the same month of 1928.

London.—(AP)—After 59 years without an increase in pay, the deans and canons of Westminster Abbey are still hopeful. Parliament will be asked to approve a raise recently prepared as a bill.

ROAD COURTESY IS VITAL, SAYS WRITER

Emily Post, Social Arbiter, Sees Growing Necessity of Careful Driving

BY MILDRED LEE

New York—More courtesy in motoring, which lead to greater safety, is one of the most important campaigns being waged by the automobile associations. The National Automobile Chamber of Commerce, The American Automobile Association and other organizations are endeavoring to co-operate with educational bodies and the newspapers in encouraging motorists to give greater thought to the etiquette of the road.

A few days ago I had the pleasure of riding in Central Park New York City, with Mrs. Price Post (Emily Post), who was seeking rest and fresh air in a delightfully comfortable 1929 Flying Cloud—the Master Sedan.

"One of the most annoying things I have noticed in my travels," said Mrs. Post, "is the tendency of so many drivers to crowd ahead of the other fellow, in an impatient desire to get through an opening in traffic or to swing around a corner recklessly. This has resulted in countless accidents where a pedestrian in traffic rushes between cars."

"Another nuisance seems to be a distorted idea of sportsmanship. I have noticed many drivers who show a decided eagerness to race another car on the road, and every police department in the country can tell you of accidents which have occurred in this way. It is also just about as dangerous to drive too slowly on the public highway, causing drivers coming from behind to overtake one. This overtaking is not only annoying to motorists, but is frequently the cause of a fender being hooked by bumpers, to say nothing of more serious accidents."

"As for the matter of police courtesy, there is wrong on both sides. As a rule I find traffic officers fairly polite when dealing with a person who has violated a traffic regulation. Then again, I have noticed them unduly gruff to the extent that it irritates the driver. More often, though, the driver is to blame for retorting discourteously to the officers, and especially flagrant cases are noticed where a woman riding in the car attempts to join in an argument and states her opinion in an unbecoming manner."

TOO MUCH EDUCATION?
The school superintendents of the National Education association, realizing "the need of school training beyond the age of childhood," recommend "The addition of junior colleges as an integral part of the public school system." This is taken to mean that the educators want to extend the schooling period of all American children to 14 years, giving every boy and girl two years of college.
The idea is admirable—provided the children stand it. Eventually a race may be developed qualifying for such prolonged instruction. But many observers will say that this presupposes considerable mental evolution. It is pretty well agreed today that people are not born equal, even in the most democratic of countries. They are merely born, or should be born, with equal opportunity. All that society can offer children in a democracy is opportunity to learn what they are capable of learning and do what they are capable of doing.
Every teacher knows what a great difference there is in the capacity of children for scholarship. Every high school teacher knows how hard it is to get whole classes through their required work. Large numbers of boys and girls, however excellent and useful members of society they may be, show no aptitude even for high school learning. Every bright high school student knows how the work of the class is held back by the presence of those who have no interest in it.
There is already some question of whether it is wise to try to cram academic instruction into all brains. This is still more true of college. Sending everybody to college would lower the standards of college work. All those who want to go and are willing to learn should be enabled to go. But is it wise to force attendance on the others?

CITY NOMADS
An electric light company in one of the big industrial cities, checking up on changes of address, finds that 38 per cent of the families in town move every year. This means an annual migration of about two families out of every five.
It means profit for the moving men. Possibly some other industries are benefited. Many, perhaps most, of the movings are justified by changes of work, betterment of the movers, etc. But there are unfortunate factors.
The situation explains a good deal of the political indifference and misgovernment of which so many cities are complaining. People who move are likely to lose their votes temporarily, and thus lose interest in local government. Those who move often may get out of the habit of voting.
Worse still, because it involves family life more intimately, is the unsettling effect of this nomadic life on neighborhoods. There is nothing finer than the neighborhood life in areas where good families of similar social status settle and remain. This is especially valuable to young people. Children come to know each other as they do in a village and grow up together. Ties are formed that last for life.
Fortunate are the boys and girls with these advantages. There are no such bonds in a district of frequent movers.
REDUCING RAIL CASUALTIES
In 1923 the railroads of the country surveyed their employee casualty record and resolved to cut it by at least 35 per cent by 1930.
As a result, various safety campaigns were inaugurated, old hazards were eliminated, and employers and employees co-operated to take the element of danger out of the railroad worker's job.
A bulletin from the Committee on Public Relations of the Eastern Railroads show how well the job has been done. With 1930 nearly a year away,

the railroads have already passed their own goal. They have reduced employee casualties by more than 47 per cent since 1923.
Nothing that the railroad men have done in recent years is much more to their credit than this.

CONVERTING THE ORIENT
An American missionary returned from India says the greatest obstacle to successful work in that country is not hostility but indifference. "The people of India regard Christianity as the religion of the white race, and do not care to accept it. They reason that if they do not ask their white friends to accept Mohammedanism or Buddhism or Hinduism, the white race should not insist on their becoming Christians."
It seems to be especially true in religion that "East is East and West is West." Christianity began as an oriental religion, but has found its acceptance almost entirely in the Occident. The West continues sending its Christian missionaries to Asia, but on the whole without much success.
Meanwhile a novel thing is happening. Asia is sending missionaries to Europe and America. Preachers of Buddhism or Hinduism or minor oriental isms are becoming familiar in this country and are often successful. There are always to be found mystical-minded persons who feel an affinity with eastern teachings. It is observable, however, that those mystic teachings are often modified considerably by their preachers in applying them to practical American life.

OUR PUBLIC LANDS
Since natural resources are largely responsible for America's rapid rise to the front rank of industrial nations, any information about the extent of such resources that still remain untapped is bound to be of interest.
A bulletin from the Department of the Interior relative to the United States' public lands is highly reassuring.
On these lands there still remains an untapped coal reserve of more than 200,000,000,000 tons. There are also deposits of 8,000,000,000 tons of phosphates. Oil shale areas will yield 60,000,000,000 barrels of oil when the need becomes acute.
It is comforting to know that such enormous reserves still exist. These, of course, are in addition to the huge reserves that lie in private hands. Apparently our great store of natural riches is by no means near exhaustion.

CHICKEN THIEVES
The chicken thief is usually considered an unimportant sort of criminal—a character for comic stories and cartoons, but nothing more.
However, his depredations are serious enough, in some rural regions, to put him into the class of major law-breakers.
In Ohio, for instance, farm organization leaders estimate that chickens worth \$1,000,000 are stolen each year. Some are taken by wild, marauding boys who are looking for excitement; some are snagged by tramps and such folk; but most of them are stolen by regular bands of thieves, who tour the farm areas in trucks, steal 50 or 100 chickens in a night, and speed away to a city to market them.
As a result, Ohio farmers are seeking a law requiring complete bills of sale for all transfers of poultry. The old joke is a joke no longer.

JAZZ IN JERUSALEM
Nothing so illustrates the spread of American influence and American ways all over the world as the way in which our popular music is played in distant lands.
Rudolph Friml, composer of such musical hits as "Rose Marie" and "The Vagabond King," recently made a round-the-world cruise. While visiting Palestine, he found a band in Jerusalem playing the famous "Song of the Vagabonds" from the latter show. Introducing himself to the leader, he took the baton and himself conducted the band in an encore rendition of the tune.
Nothing could be much more striking than that. A rousing Broadway song in the holy city of Palestine! Our music, at any rate, is going all over the world.
In a straw vote conducted by the American Nature Association to choose a national flower, the violet is running last. The violet stands for modesty.
It was news, of course, when Lindy and Annie crashed, but it seems the big news broke the next day when Lindy took Annie for another ride, and ONE OF HIS ARMS WAS DANGLED UP.
In the recent election in Chicago six sitting aldermen were defeated. Moral: Even an alderman should learn to stand up once in a while.

POST-TONIC
The Kennedy is Worse Than the Malady
The young married couple were having a disagreement while awaiting lunch at a modest eating house. She was grumbling because they were unable to afford the luxurious restaurants which had been a feature of their honeymoon.
"You can't have a brass band everywhere you go," said he crossly.
"Oh, yes, I can," snapped the bride. "I've got one with me now; on my finger!"
"Isn't it hard," said the sentimental lady, "to think this poor little lamb was cut down in its youth to satisfy our appetites?"
"Yes," said the sour-faced boarder, struggling with his portion, "it is tough."
"He died in the harness, poor chap,"
"Yes, and by the way, did you ever notice how much like a harness life is? There are traces of care, lines of trouble, bits of good fortune and breaches of faith. All tongues must be bridled, passions curbed, and everybody has to tug to pull through."
"Why all the bandages on Jones' head?"
"Rotten bridge."
"Break through?"
"No, trumped his wife's ace."
Lady—"You say your father was injured in an explosion? How did it happen?"
Child—"Well, mother says it was too much yeast, but father says it was too little sugar!"
Friend—How do you ever manage to entertain your company in so small a flat?
Street Car Conductor's Wife—When the seats are all taken I hang straps on the walls.
DANGEROUS NUT
Myrtle—"What is the most dangerous part of an automobile?"
Grace—"The nut that holds the steering wheel."
"When I was a boy I thought nothing of chopping wood all day long."
"I don't think much of it myself."
Blinks—Is your wife a better driver than you are?
Jinks—"Well, she drives the car a lot of places I wouldn't."
"I don't like your inviting that chap to dinner. He used to kiss you before we were married."
"Well, so did you."
"Yes, but I've got over it and maybe he hasn't."
"Collars, neckties and socks—yes, sir! How about some nightshirts?"
"No, sir. I ain't no society rounder. When night comes I go to bed."
There's no question but that children received better marks in school when the hickory switch was used.
"There goes the old rascal who swindled me out of \$50,000."
"How did he do it?"
"He refused to let me marry his daughter."
The greaser had just put a new boy to work, and among the other instructions was this:
"If you don't happen to have what a customer wants, suggest something else as nearly like it as possible."
Soon a woman came into the store and asked the boy, "Have you any fresh green stuff today?"
"No, ma'am," answered the boy, "but we have some nice bluing."

Today's Anniversary
A GREAT NAVAL BATTLE
Sixty-seven years ago today the most important naval battle in the world's history came to an end with both ships limping off the scene, neither victorious. It was the battle of the Monitor and Merrimac, the world's first ironclad warships.
The battle, undecided as its result was, revolutionized the navies of the world, and doomed wooden fighting vessels to Davy Jones' Locker forever. In this lies its greatest importance, but it also had the immediate effect of bolstering the morale of Union supporters. The Merrimac, built by the South in an effort to break the northern blockade of Hampton Roads, was proving a terror of the seas. No wooden ship could give it a real contest. Soon after, the Union retailed with the Monitor, designed by John Ericsson, inventor of the screw propeller. When on March 9, 1862, the Monitor met the Merrimac in this lies its greatest importance, but it also had the immediate effect of bolstering the morale of Union supporters. The Merrimac, built by the South in an effort to break the northern blockade of Hampton Roads, was proving a terror of the seas. No wooden ship could give it a real contest. Soon after, the Union retailed with the Monitor, designed by John Ericsson, inventor of the screw propeller. When on March 9, 1862, the Monitor met the Merrimac in this lies its greatest importance, but it also had the immediate effect of bolstering the morale of Union supporters. NEW FASHIONS

A PAGE OF INTEREST TO WOMEN

BEAUTY HINTS

LIVE AND LET
LIVE IS MOTTO
OF THIS FAMILY

BY OLIVE ROBERTS BARTON

My, oh my, but this is a conventional world!

How many of us can remember things we were crazy to do as children and would have done, too — possessing all the originality and none of the inhibitions of childhood — had not our parents done the inhibiting for us?

Think back, parents, of the pet disappointments you have carried through the years to maturity and then look at your own boy or girl and try to recall the things he or she has been coaxing to do these many months. Are you holding back because of some silly convention? Are you afraid of what people might think?

Perhaps, if it is something within your power to grant, it might be the best thing in the world for you to say, "Yes, go ahead!"

WHAT A FAMILY SPIRIT

One of the most refreshing families of children I ever knew is possessed by a pair of parents who took long ago for their motto the little creed I am preaching, "Live and let live." is the family slogan. One boy conceived a notion to possess a Jew's-harp. If you know what a Jew's-harp sounds like I think you'll make obeisance to the mother who could listen to its whanging distressed voice day out and in without protest. But something in his soul answered to its complaining. He loved it to distraction. The neighbors laughed—but the family didn't. They took it quite seriously.

A sister, Nettie, was to be sent to dancing school. She begged off. "I can't do that stuff, Mother. Aesthetic dancing suits me like wings would suit a monkey. Let me clog. I cut a piece out of the paper—an advertisement for a new school where they teach clogging and tap dancing. I'm crazy to learn."

Nettie can tap now with anyone on the big time.

Emery's talents ran to roping. He has mastered all of Will Rogers' stunts and every second out of school finds him with his beloved rope. The family takes it as a matter of course.

FANCIER FEET
PREDICTED FOR
SUMMER TIME

Paris (AP)—Fancier feet, which means shoes of fabrics printed in bright colors, are trying to establish themselves in summer fashion's graces. So far women's reaction to the bright printed silks and straw embroidered beach sandals is lukewarm as the styles are meant for mid-summer wear.

Gold and silver dancing shoes which are modified copies of ancient sandals, plus modern heels, are having more success. Toes are reduced to a minimum on the new sandals and straps are intricate and numerous.

CHENILLE EMBROIDERY

An evening scarf of sections of pastel colored georgette is embroidered in gold and silver-colored chenille polka dots.

THE TINYMITES

By Hal Cochran

READ THE STORY. THEN COLOR THE PICTURE

AS Clowzy stood before the cave, the Tinymites began to rave. "Don't go in there," said Scouty. "How do you know what's inside? Take my advice and have a care. A lot of bears may live in there. That likely is a fine dark place for animals to hide."

Then Copy added, "No, siree! It doesn't look so safe to me. Let's

run along and just forget about this pitch dark door. I'm really scared. I must confess, 'cause we might get into a mess. There is no need in going in. What should we do it for?"

"Twas Carpy's turn to have his say. Said he, "I'd rather run and play right out here in the open. Then I know that I'm all right. We don't know where that cave leads to, and as for me it will not do to take a chance at entering. Why, it's as dark as night."

"Ha, ha," laughed Clowzy. "You're all scared. You wouldn't go if you were dared. But I am brave and very bold. There is no fright in me. This monstrous cave may shall be tried and all of you can wait outside. When I come back I'll tell you all about the things I see."

So, while the others stood around, wee Clowzy, with a sudden bound, went running through the black space and was soon far out of sight. "Oh, my," said Scouty. "I'll just bet that while we wait we'll sit and fret. I surely hope that Clowzy finds the cave is quite all right."

Just then there came a rumbling sound and rock began to fall around. Each Tiny jumped back just in time to save his little hide. One great big rock fell with a roar, and landed by the black cave door. The entrance now was blocked and little Clowzy was inside.

(The Tinymites try to free Clowzy in the next story.)

A youngster advertised in a southern newspaper: "Wanted — more snow."

The Russian revolution separated Eugene Brasol of Daytona Beach, Fla., and his son Basil for 11 years.

ETHEL

YOU NEVER CAN TELL!

THE NEW Saint Sinner

By Anna Austin

© 1929 by NEA Service, Inc.

"Hello, Divine Lady! You look almost immorally seductive in that dress. May I kiss your hand?" Bob Hathaway greeted his wife on the evening of Thursday, November 15, just a month after his cousin Crystal's sensational "kidnaping."

Faith smiled, then, spreading the long skirt of her "period" evening dress, dropped him a little curtsy. "Behind your extravagant compliments, my dear husband, I think I detect a faint trace of anxiety. Fear not, darling. The dress was far less expensive than I hope it looks. I made it myself. It is part of a doctor's prescription?" Bob cooed.

Faith laughed. "The prescription was written for poor Crystal—not for me. Dr. Hogarth—"

"Hogarth?"

"Dr. Hogarth is a psychiatrist," replied Faith, "as you'd know if you read anything but the building news in the papers. He was the alienist in that Miller murder case."

"Alienist? Good grief! Is the girl crazy? I thought Crystal was getting along fine—"

"And so she is—physically, or as well as could be expected, as the doctors maddeningly phrase it."

Faith answered, her brown eyes suddenly very grave. "But you know yourself, Bob, that we haven't been able to make the poor child take the slightest interest in life. Dr. Ho-

garth has ordered gayety for her—and gayety means a party."

"The idea of a party sounds nutty to me," scowled Bob. "Why the kid has been refusing to see anybody—"

"I know," Faith agreed. "It was rotten luck that Tony Tarver had to go to California just when Crystal needed her worst. If anyone could have made Crystal snap out of this melancholy of hers, it would have been Tony."

Tony's due home any minute now. An hour ago the radio reported her leaving the airport at Cleveland, on the last lap of her flight."

"That reminds me," Bob jerked a folded newspaper from the pocket of his coat, and tossed it to his wife. "Here's an extra—just out. Thought Crystal might pop up when she saw it, even if she has refused to look at a newspaper since she became front-page stuff."

"What is it?" Faith asked fearfully, unfolding the paper as if she were afraid it would bite her. "Oh, a big reception for Tony and Sandy at the aviation field! 'CITY TO WELCOME AIR-RECORD BREAKERS,'" she read the headline aloud. "Sandy Ross will be furious. I never saw such modesty in my life. . . . Isn't that a stunning picture of Tony? It's hard to realize she holds the endurance flight record for women flyers, isn't it? Can you imagine Pat Tarver buying her a plane and letting her do such a stunt? . . . Look what a scowl Sandy Ross is wearing! 'Modest young Stanton aviator who hangs up new altitude record in California as his childhood comrade, Tony Tarver, smashes previous endurance flight record for aviatrix,'" she read aloud. "Well, if the mayor makes a long speech and keeps Tony from Crystal's surprise party I'll never vote for him again."

Invalid Started Move To Perpetuate Mount Vernon

BY SUE McNAMARA

(Associated Press Feature Writer)

Washington (AP)—A woman, Ann Pamela Cunningham, a lifelong invalid, started the movement to save Mount Vernon, home of George Washington. Had it not been for the passionate appeal of this "Southern Matron," as she signified herself, the lovely old white house in its setting of green lawns and stately trees, for years the mecca of thousands, might not be here today.

Another woman, Grace Elizabeth King, has written the story of Ann Cunningham's heroic fight for sentiment and beauty. Her book, "Mount Vernon on the Potomac," has just been published and presented to the Library of Congress. It is a history of the Mount Vernon Ladies' association, which for years has had charge of Washington's old home.

Miss Cunningham was a southern belle, the daughter of Col. Robert Cunningham, who received his title for distinguished service in the war of 1812. Like many girls of that day, she loved to ride horseback. While on a joyous gallop she was thrown from her horse and her spine was so injured that she became a lifelong invalid. But her flame-like spirit burned as fiercely as ever. A letter from her mother inspired her with the determination to save Mount Vernon at a time when Congress declined to purchase it.

"It was a lovely moonlight night that we went down the Potomac," wrote her mother. "I went on deck as the bell tolled and we passed Mount Vernon. I was painfully distressed at the ruin and desolation of the home of Washington, and the thought passed through my mind: Why was it that the women of my country did not try to keep it in repair, if the men could not do it?"

Upon receipt of this letter the invalid character, her pale cheeks flushed with sudden animation, declared:

"I shall do it!"

Her first step was to write an impassioned letter which was published in the Charleston Mercury. It was

addressed to "The Ladies of the South" and signed "Southern Matron." Its date was December 2, 1852.

"Can you stand with closed souls and purses while the world cries, 'Shame on America!'" it read. "Forbid it, shades of the dead, that pilgrims to the shrine of pure patriotism should find at forgotten, surrounded by blackening smoke and deafening machinery!"

The letter awakened immediate response. The first meeting for the cause was held in Laurens county, Va., Miss Cunningham leading the list of subscribers. The gallant editor of the Mobile Herald and Tribune took up the cause with a fervent editorial in which he urged women of the country not to let modesty and conservatism keep them out of the fight for Mount Vernon.

"A woman may not with propriety gird a sword and lead armies," he writes, "but it does not follow that she is fit for nothing but a drudge or a trifler—her destiny oscillating between that of a slave and the unbridled elegance of a seraglio. Wherever there is pure sentiment there is woman's sphere. To rescue the home of Washington from spoliation is the peculiar business of woman. To save it from harm is her duty, and any man who should condemn her for the act deserves to die where there is no gentle voice to soothe his passing moments."

Edward Everett supported the women and earned \$69,064 by his lectures and writing for the Mount Vernon fund of \$200,000. Miss Cunningham, despite her frail health, continued publishing appeals and holding meetings. In 1853 she was victorious and issued a happy announcement that the Mount Vernon Ladies' association had secured to the American people the privilege of making the home and grave of Washington the property of the nation.

The five-ton griffin that watched over the old Chicago board of trade has lost their job. There is no place for griffins at the new building.

Princess Lines And Bodices In Lingerie

BY ROSETTE

For NEA Service

PARIS — Lingerie is rapidly becoming as intricate in cut and almost as complicated as dresses. The wave of feminism, which swept over the world of fashion last year can also be traced in this direction.

The question of lingerie has always been one of paramount importance to the Frenchwoman. In the good old days and even as recently as ten years ago, although styles did not change every year, her lingerie cupboard was her pride. The sheers of hand-made linen, real Valenciennes and the finest handwork was what the middle-class Frenchwoman insisted upon. Nowadays her trousseau has considerably diminished in numbers but quality of workmanship and fabric are always to be found. Silk has replaced linen and colors are preferred to the old all-white idea. Intricate drawn-thread work or embroidery share the honors with lace, usually of the delicate crepe, but it is the quantity of material used that will surprise you if you compare the lingerie of today with that of yesterday.

LINGERIE KEEPS STEP

The art of dress is becoming such a subtle and complicated one nowadays that one wonders if the limit has not been reached. Lingerie, fashion has decreed, must follow the new form-fitting dresses are also being shown and for the deep V-decolleted evening gowns you can find combinations cut on the same lines. Even night-dresses show hems, dipping at the back and various types of yoke effects as in dresses.

An interesting slip shown by one of the leading houses has a form-fitting bodice and a skirt composed of detached panels hanging loosely from the waist and falling, therefore, into beautiful lines beneath an evening frock.

VOILE RANKS FIRST

So far as materials are concerned, first and foremost comes voile triple (a beautiful, supple but quite hard wearing silk voile), then crepe de chine. A small quantity of crepe satin has been used lately but mostly for nightdresses and pajamas.

Lace has never before been used in such quantities for underwear and on some of the new models the yoke effect is carried out in lace making the waist insertion edging, leaving but a wisp of material to form the remainder of the garment.

Knickers or step-ins are shorter than they have ever been before, just covering the girdle which is always worn on the skin.

PAJAMAS WIDE-TROUSERED

Sleeping suits are featuring wide trousers from the knees down, sailor-fashion, and the jackets are usually completed with a wide sash of the same material. Pajamas in a different color or intricate incrustation work are the only forms of ornamentation seen in the more expensive suits. There is usually a three-quarter length coat to match, cut on the lines of a Chinese coolie's coat, which takes the place of a dressing gown.

Flesh-pink still continues to be

avored by smart women as the only possible color for underwear unless, of course, you can afford to have a set to match each of your ensembles. A delicate powder blue comes next and white, or rather ivory, seems to be effecting a timid reappearance. There is also a pale green to be seen in anticipation of the coming season, as green is going to be, it is said, one of the outstanding new colors. Pompadour bouquets on light grounds are sometimes used and a few black grounds are shown, too.

Snug Girdle

SUBTLE CHIO

Style No. 2703—An unusually lovely frock of printed silk crepe, appropriate for street or afternoons. The deep scalloped shawl collar of plain silk crepe combines with snug girdle to slenderize the figure. The circular skirt is shaped through hips with full flaring hem to affect new Princess silhouette. A huge self-fabric bow placed at left hip adds smart femininity. It is very attractive in lustrous crepe satin, georgette crepe or plain silk crepe. Cuts in sizes 16, 18 years, 35, 38, 40 and 42 inches bust.

VOLANTS HAVE GROWN IN SIZE AND IN STYLE

The flounce or volant has grown both in style and in size, until today it scarcely is a flounce at all. One of the smartest new crepe de chine spring frocks has a skirt which is alleged to consist of two flounces, one above the other. What the skirt really is is two kilts, one short and one longer, worn with the shorter one above the other. These kilts may be made with a straight hemline or an uneven one. They are topped at the waistline by a patent leather belt.

FLAPPER FANNY SAYS—

Some women are too content to remain discontented.

SISTER MARY'S KITCHEN

BY SISTER MARY

BREAKFAST — Stewed prunes with cinnamon, cereal, cream, poached eggs on toast, extra toast, milk, coffee.

LUNCHEON — Spaghetti with corn and bacon, while wheat popovers, carrot conserve, apple snow, milk, tea.

DINNER — Beef loaf, rice tomatoes, creamed cabbage, beef salad, creamy rice pudding, milk, coffee.

If your supply of conserves and preserves is running low, carrot conserve will be a welcome addition to the preserve shelf. The tang is quite delightful for this time of year when appetites need whetting.

CARROT CONSERVE

Three cups grated carrot, 2 lemons, 1 orange, 1-2 cup seedless raisins, 2 cups granulated sugar.

Wash and scrape carrots and put through food chopper. Cook in as little water as possible until tender. It will take about 15 minutes.

Squeeze juice from lemons and orange and cut rind in thin shreds. Add to carrots with a little more water and cook until tender. Watch closely to prevent burning but use as little water as possible. When tender add fruit juice, sugar and raisins and simmer until thick. Put into sterilized jelly glasses and cover with paraffin when cool.

Spices can be added: stick cinnamon, mace and whole cloves tied in a small cheesecloth bag. Use 2 tablespoons of mixed spices.

The raisins can be omitted and chopped nuts can be added for the last ten minutes of cooking.

GOLDEN DAYS

By EVANS

For LOTHAR G. GRAEF LUMBER CO.

IF WE RIPPED UP THAT BOARD I BET WE'D FIND LOTS O' MONEY THAT WAS DROPPED THRU—

YES, BUT WE AIN'T GOT THE RIGHT TO RIP THAT FLOOR UP

PARTIES SOCIAL AND CLUB ACTIVITIES MUSIC

Plan County Music Clinic Here In May

THE first annual Outagamie-co. Music clinic will be held in Appleton Friday, May 10, at the same time the Outagamie-co. field meet will be run off, and the county boards of education will meet. It is probable that the clinic will be held either at Lawrence Memorial chapel or at Wilson Junior high school. Plans for the clinic are only tentative. It is expected that a chorus of 500 children representing the first eight grades in all the rural schools in the county will sing from 10 to 12 o'clock in the morning, a picnic lunch will be served at Pierce park and either the 120 Field Artillery Band or the Lawrence Conservatory orchestra will give a two hour concert.

According to present plans, a group of three and four part songs, including "America," "America, the Beautiful," "Stars of the Summer Night," "Swanee River," and other folk and patriotic songs, will be sung by the entire group, with the children of the lower grades carrying the melody. Then the fifth, sixth and seventh grade pupils will sing a group of three part songs, and pupils of the first, second, third and fourth grades will present eight sections. A demonstration of a typical classroom music lesson will be given by fourth grade children, and another by pupils of the first and second grades.

A slight reading contest will be held to determine which district has the best sight readers, and after the contest the winners will be assembled to give a demonstration.

Misses Carol Short and Lorene Fredricks will assist Dr. Earl Baker in the music clinic demonstrations, and during the meeting of the boards of education a group of trained teachers from the Outagamie-co. training school will demonstrate their ability to teach music in the county schools.

MOVIE STAR WILL MARRY GOTHAM GROCER

Green Bay—(AP)—Phyllis Haver, screen star announced here Saturday that she will marry William Seaman, a New York wholesale grocer. The marriage will take place in about six weeks when Miss Haver will have completed her work as the feminine lead in the picture, "Thunder," which is being taken around Green Bay. Lon Chaney is playing the other lead.

PASTOR TALKS ON LAD DANIEL

The Young Lad Daniel and Our Young People of Today was the topic of the lecture given by the Rev. Richard Burger of Milwaukee in Mount Olive church parlors Friday evening. The lecture was sponsored by the Senior Olive branch Walther league.

The speaker compared the life of Daniel with those of the young people of today, and outlined the little things in life which he claimed counted the most. He stated that often times it was the infinitesimal things that really developed into things worthwhile.

CHURCH SOCIETIES

Circle No. 8 of the Woman's Association of the Congregational church will meet at the home of Mrs. W. R. Chaloner, 200 S. Oneida-st., at 2 o'clock Monday afternoon. Mrs. Leslie Pease is captain of the group.

The regular monthly business meeting of the Senior Olive branch Walther league will be held at the Mount Olive church parlors at 7:30 Tuesday evening. Plans for the Southern Wisconsin Walther league convention to be held here May 11 and 12 will be discussed. Regular business matters also are to be transacted.

Miss Lucretia Zimmerman and Harold Eads will attend a meeting of the officers of the Green Bay association of the Baptist Young Peoples Unions Saturday afternoon at the Y. M. C. A. at Green Bay. Plans are to be made at the meeting for the spring rally which will be held at Fond du Lac.

About 200 women of the Methodist church attended the informal tea sponsored by the Social Union at the church Friday afternoon. Captains of the different groups acted as hostesses, and Mrs. James I. Brown, Mrs. Charles Pond, Mrs. Wilmer Schaefer, and Mrs. R. R. Cade poured. Mrs. George Nixon acted as serving chairman.

Members of the Christian Mothers society of St. Joseph church will meet at 2:30 Sunday afternoon at St. Joseph church. This will be the regular monthly meeting.

LODGE NEWS

Seventy couples attended the dancing and card party Friday night given by Odd Fellows at Odd Fellow hall. Alex Fahstrom won the prize at cards. The last reading of the by-laws will be given at the regular business meeting of Konomie lodge at 8 o'clock Monday night, and definite action will be taken regarding them. This will be the last meeting before the district meeting, Saturday night, March 16 at Kaukauna. Degree work will be exempted at the meeting in two weeks.

Officers will be elected at the meeting of Valley Shrine, No. 10 at 7:30 Monday evening at Masonic temple. Regular business also will be transacted.

EASTER BALL IS PLANNED BY CLUB

An Easter ball will be a fitting climax to the social season of the Century club this year. The ball will be preceded by a formal dinner and will be held Tuesday night, April 2. Appointment to the various committees in charge of the event will be made soon and the place of the party will be announced.

Excavations in the Near East will be the subject of the program at the meeting of the Tourist club at 3:30 Monday afternoon at the home of Mrs. T. E. Orison, 214 S. Rankin-st. Mrs. Benjamin Russell will give the program.

Members of the Clio club will meet at 7:30 Monday evening at the home of Mrs. Kate Gochsauer, E. College-ave. Mrs. R. A. Ritchie will review a book.

Beauty Elopes

Alice Smoot, 18, granddaughter of Senator Reed Smoot of Utah, surprised social Washington the other day when she eloped with Frederick Chambers, 22, a newspaperman. They were married at Frederick, Md., after an auto trip from the capital.

CLUB MEETINGS

A program of readings of poems from "The Land of Fancie" by Mrs. Libbie C. Egan was given at the meeting of the Sunshine club Friday afternoon at the home of Mrs. Amanda Pfeil, E. Eldorado-st. The program was in the memory of Mrs. Baer, who died recently. Thirty members were present at the meeting at which a spelling bee was held. Mrs. Mary Sheerin of Neenah won the prize in the contest. Mrs. Pfeil was assisted by Mrs. Ernestine Sonntag, and Mrs. Margaret Zschaechner.

Mr. and Mrs. William Rooks, N. Tonka-st., entertained the Four Square Schafkopf club Wednesday night at their home. Prizes were won by Herman Meyers, D. L. Chady and Mrs. D. L. Chady. Mr. and Mrs. Edward Drager, E. North-st., will entertain the club next Tuesday night.

The Hy Lo club met at the home of Mr. and Mrs. Ernest Schmitt on Friday, 1225 W. Fourth-st., Friday night. Prizes in schafkopf were awarded to Mrs. Louis Luebke and Mrs. Albert Nieland. Wilbur Hoernig and Louis Luebke. Next week the club meets at the home of Mr. and Mrs. Luebke, 1224 W. Fourth-st.

Miss Edith Emes, 721 E. North-st., will be hostess to the Novel-History club at 7:30 Monday evening at her home. Miss Aimee Baker will give the program.

Mrs. Joseph Marston read an article about the new First Lady of the Land by Mary Roberts Rinehart at a meeting of the Over the Teacups club Friday afternoon at the home of Mrs. Elmer Jennings, E. North-st. Mrs. F. S. Bradford read from "Pages of My Life" by Challapin. Mrs. Bradford will entertain members of the club at a 1 o'clock luncheon next Friday at her home at 312 W. Prospect-ave, with Mrs. Joseph Koffend, Jr., and Mrs. Elmer Jennings the assistant hostesses. Mrs. R. K. Wolter will read.

Miss Mae Knapstein, Story-st., entertained the R. B. Bridge club Friday evening. Honors went to Miss Beatrice Roblee and Miss Leone Vogel. Miss Roblee will entertain the club next Friday night at her home on N. Superior-st.

Beethoven will be the subject of the program at the monthly meeting of the Appleton Woman's club at 3 o'clock Monday afternoon at Appleton Woman's club. Mrs. William Wright is chairman of the program.

Miss Leone Hegner, N. Appleton-st., entertained the Marchette club Friday night at her home. Eight members were present and the evening was spent sewing. The club will meet in two weeks at the home of Mrs. Armin Knoke, Linwood-ave.

Mr. and Mrs. A. F. Wendt, 515 N. Union-st., entertained members of their bridge club Friday night at their home. Four tables were in play and prizes were won by Mr. and Mrs. Fred Abendroth, Mrs. Louis Nabbefeld and George Johnson.

The Marathon Bridge club met Friday night at the home of Miss Evelyn Densett, N. Union-st. Honors went to Thomas Keating, Miss Mae Keating, and Mrs. Warner Spoerl. Members of the club will be guests of Mr. and Mrs. Spoerl, S. Spruce-st. Wednesday evening, March 20.

Members of the Christian Mothers society of St. Joseph church will meet at 2:30 Sunday afternoon at St. Joseph church. This will be the regular monthly meeting.

Appointment to the various committees in charge of the event will be made soon and the place of the party will be announced.

Members of the Christian Mothers society of St. Joseph church will meet at 2:30 Sunday afternoon at St. Joseph church. This will be the regular monthly meeting.

She's Hostess

Here is a new and unusual photographic study of Baroness Marie von Plittwitz, wife of the German ambassador to the United States. She has proved a charming hostess at the German embassy at Washington.

VESPER SERVICE IS POSTPONED

Because of the Visitation Campaign to be conducted by the cooperative churches this weekend, the regular vesper service at the Methodist church will not be held Sunday afternoon as planned. The program arranged for this Sunday will be postponed until next Sunday afternoon at 4:30.

PARTIES

A number of friends surprised Mr. and Mrs. Ernest Mueller, 412 W. Summer-st., Friday evening at their home. Cards were played and prizes were won by Mr. and Mrs. Mueller and R. Nagreen. Those present were Mr. and Mrs. R. Nagreen, Mr. and Mrs. Arthur Becker, Mr. and Mrs. Paul Sellin, Mr. and Mrs. Frank C. Koch and Mr. and Mrs. Frank Doughty, the latter of Stephensville.

Mrs. Victor Hagen entertained at a bridge party at her home, 12 College-ave., Thursday evening. Two tables were in play. Prizes were won by Miss Etola Gorrow and Miss Margaret Roush.

SHERIFF WILL SELL 2 FARMS AT AUCTION

Two parcels of land will be sold at 10 o'clock Thursday morning, March 14, at the courthouse by Sheriff Fred W. Giese to satisfy mortgage foreclosure judgements.

One farm consists of 75 acres in the town of Bovina. It is owned by Isaac Roberts, et al. and the mortgage is held by the Federal Land bank of St. Paul. The foreclosure judgment was granted by Judge Theodore Berg in municipal court on Jan. 21, 1928.

The other farm consists of 79 acres in the town of Cicero and is owned by George Scott, et al. The mortgage is held by A. F. Zuehlke, executor of the estate of Charles Conrad. The judgment was granted by Judge Berg on Jan. 19, 1928.

Lawyers to Meet

The Outagamie County Bar association will meet Monday noon at Hotel Northern. A dinner will precede the monthly business session. Routine business matters will be transacted, according to Miss Rose Ryan, secretary.

ROCKEFELLERS ARE STILL OIL KINGS, VICTORY REVEALS

Ousting of Stewart Adds Emphasis to Business Philosophy of Young Ruler

BY OWEN L. SCOTT Copyright 1929 by the Consolidated Press Association

Chicago—Victory, showing the world that the Rockefeller still are oil kings, has added emphasis to that business philosophy upon which the younger ruler of an oil empire bases his actions.

His successful fight against Col. Robert W. Stewart is more readily understandable in the light of his publicly expressed ideas. Foremost of these is the opinion that stockholders are responsible for conditions in the companies by which they profit and should exercise every effort to produce high standards of business practice.

Much of the Rockefeller philosophy was expressed in an address by John D. Jr., before employees of the Standard Oil company of New Jersey, the parent of the Standard Oil group.

"No honest Rockefeller," he told the workers, "wants profits derived from compromise with right, nor would he willingly permit, much less expect, any act to be performed by any one representing the company, from the president to the office boy, which he would not himself be willing to perform."

The younger Rockefeller declared further that "the vital matter to which business must needs address itself is the re-emphasizing of high standards of business ethics, for upon such a foundation only can business be permanently successful."

"Of course other qualities besides character are also necessary—ability, persistence, industry, thrift," he asserted in stressing qualities which he said should be had by those who would be business leaders.

CHARACTER NECESSARY

"But the character is indispensable. Some people confuse character with reputation. Reputation is what people think we are; character is what we really are. A good reputation for an individual or business concern is to be desired; far more so a character that is beyond question."

"In this money-mad age we do well to remind ourselves that after all the real purpose of our existence is not to make a living, but to make a life—a worthy, well-rounded and useful life."

John D. Rockefeller, Jr., reputed to be the second richest man in the country now that most of his father's holdings have been turned over to him, has advanced ideas of industrial organization as well. He is pictured as heartily in favor of the progressive steps taken by the Standard Oil company of Indiana, under Colonel Stewart's direction, in improving the working conditions and the status of company employees.

Now that Colonel Stewart has lost his battle and is back in private life, this is conjecture about his future. Rumors have been current for weeks that in the event of defeat he would go with the Sinclair Consolidated Oil company, but his friends do not vouch for that report. They doubt that he will enter any concern that competes with Standard Oil of Indiana, where his friends and former associates still run things.

The position of the Indiana company in the industry is considered impregnable because of its control of source of supply through the Dixie Oil company, the Sinclair Pipeline and the Pan-American Petroleum company.

But control of the gigantic unit of the Standard Oil group does not mean where it was expected to lie—in the Middle West. Back in 1913, George W. Stahl, then secretary-treasurer of the company testified that John D. Rockefeller and other eastern interests had lost control of the Indiana company.

"I don't think they could control now if they wanted to," he said. Sixteen years later, eastern control was shown still to be pretty much a fact.

Seven cases of truancy were investigated in February by J. G. Pfeil, city truant officer and of these four were returned to school. Fifty-two cases of non-attendance were checked, with the result that 29 were found to be due to parental negligence and 16 to other causes. Four parents were notified of violation of the law and one case was brought into court. During the month the truant officer made 123 calls, 18 of which were at various schools.

SEVEN TRUANCY CASES CHECKED LAST MONTH

Seven cases of truancy were investigated in February by J. G. Pfeil, city truant officer and of these four were returned to school. Fifty-two cases of non-attendance were checked, with the result that 29 were found to be due to parental negligence and 16 to other causes. Four parents were notified of violation of the law and one case was brought into court. During the month the truant officer made 123 calls, 18 of which were at various schools.

How To Play Bridge

BY Milton C. Work

CONTRACT BRIDGE

"The Auction Player, unfamiliar with Contract, is apt to be troubled by the big difference between Auction and Contract values for tricks, under-trumps, premiums, slams and rubbers, etc. The vulnerability factor in Contract is also apt to be confusing."

As a special service to our readers, Mr. Work will be glad to send you upon request, complimentary, a complete statement explaining all these new features, provided you enclose a self-addressed, stamped envelope for his reply. Mr. Work also answers all Auction and Contract questions without charge.

Yesterday I gave a table showing the strength required for raising or jumping partner's suit-bids; the table based upon the assumption that partner's one bid of a suit shows four probable tricks, and his two-bid six probable tricks.

When determining what is required for a raise or jump of a suit-bid, it is impossible to use the simple 4-3, 2-1 No Trump count. When raising suit-bids, a face card is of greater value if combined with a higher face card; consequently, two values must be assigned to Kings, Queens and Jacks. Compared with an Ace, the three face cards have less value in suit bidding than they have in No Trump; therefore, for suit jumps, the valuation is 5-3-1-0 for Ace, King, Queen and Jack respectively. When the honor in question is the highest in the suit, But when a King, Queen or Jack is combined with a higher honor, the values are increased to 5 for King, 3 for Queen and 1 for Jack. The same 5-3-1 scale being used in both cases.

Along with the valuations allowed for these high cards, there are valuations allowed for more than normal length in the suit and also shortness in some other suit. (As raises of bids of one or two are not made without normal support, the raising hand must have trumps for ruffing.) The table shows that if the original bid be one of a suit, 13 is the count necessary for a raise or jump; that with 17 (4 more), the jump should be to three; and with 21 (again 4 more), the jump should be to four. When the original bid is two, only 8 is needed for a raise or jump to three, or 12 for a raise or jump to four.

At first thought it may seem that 13 is too high a requirement for advancing partner's suit-bid from one to two; 13 is the equivalent of two Aces and a King in three different suits, or Ace-Queen in one suit and Ace in the other, or Ace-King in one suit and two doubletons, or a blank suit and an Ace—not to mention innumerable other combinations involving long and short suits. But the original one-bid must be made with some such holding as Ace-King-Q-J with one side trick; and then a raise with less than 13 would not be safe.

4 EARLY GAMES ARE PLANNED FOR BREWERS

Hot Springs, Ark.—(AP)—A series of four games with Little Rock has been arranged for the Milwaukee Brewers now in training here. Jack Leivelt announced Saturday. Two games will be played at Hot Springs March 17 and 21, and two in Little Rock March 20 and 23.

Soph Triangle Meeting

The Sophomore Triangle club of Appleton high school will meet at the Y. M. C. A. at 7:30 Monday evening. Plans for the spring months will be outlined and regular business matters are to be transacted.

Miss Margaret Murphy, daughter of Mr. and Mrs. John Murphy, a student nurse at Marquette Training school at Milwaukee, is ill with scarlet fever.

Mrs. J. Delzer will leave Sunday morning for the east on a buying trip.

ANTICIPATE FIGHT
BEFORE ADOPTING
NEW BUS MEASURE

Part of Council Thinks City
Should Obtain More in Op-
erating Fees

Kaukauna—There is likely to be some controversy over adopting the bus ordinance drawn up by valley city officials and officials of the Wisconsin Michigan power company at the next council meeting. Action on the ordinance was deferred to the next meeting because of the absence of the city attorney. Some of the aldermen wanted to get more information before voting.

A number of the aldermen declined to give statements regarding the matter before the next meeting. One alderman said that if a vote would have been taken at the last meeting the result would probably have been a tie. Opposition is based on the belief that the city would not derive money on the ton-mile basis.

Mayor W. C. Sullivan, who attended the valley meeting at which the ordinance was drawn up, stated that he was heartily in favor of accepting it in its present form. He pointed out that if there was ever a time that the city needed passenger transportation it is at present.

It is necessary because there are a large number of local men and women working out of the city. Business could not adequately be carried on if the busses were removed. He said that Kaukauna would derive about \$500 a year from the busses, which is much more than was received by the city last year. With the ton-mile basis Kaukauna will receive the maximum amount of revenue on the busses, he said, because they use much of the city streets on their routes.

"The problem of adequate transportation at reasonable cost for the people living in this city, who are compelled to travel outside the city, is of major importance and takes precedence over any controversy over a license fee a city may charge," the mayor said.

"The city must have transportation and after a most thorough discussion, in an impartial manner with every phase of the problem considered, the unanimous opinion of the city officials from every city in the valley was that the ton-mile basis was best. I favor the ordinance, as presented."

JANET SMITH HIGH
BOWLER AMONG WOMEN

Kaukauna—Miss Janet Smith rolled 154 for high single score in the Ladies' Bowling League Thursday evening on Hilgenberg alleys. She also rolled 483 for high total score. The Nightbirds won three games from the Bobolinks; the Owls won three games from the Hummingbirds; and the Larks won three games from the Crows.

GORHAM FUNERAL
IS HELD FRIDAY

Last Rites Are Conducted at
St. Mary Church by Rev.
C. Ripp

Kaukauna—Funeral services for John Gorham, 67, who died Tuesday at his home at 117 W. Fourth-st., were held at 9 o'clock Friday morning from St. Mary church. The Rev. C. Ripp was in charge of the ceremonies and interment was in St. Mary cemetery. Mr. Gorham was ailing since last July.

He was born in Bay Settlement and had been a resident of Kaukauna for the past 10 years. Besides the widow, he is survived by four sons: Charles of Canada, Henry of Juneau, Alaska, Sandy, address unknown, and Arthur of Kaukauna; one daughter, Della, address unknown; and four sisters, Mrs. J. Alle of Marinette, Mrs. Frank Stone and Mrs. P. Wilson, both of Menominee, Mich., and Henry Matheson of De Pere. Paul bearers were Joseph Gogot, Joseph Kuehn, Matt Brill, George Dreyer, Albert Vanervenhoven and Lynn Parker.

TEACHER INSTITUTE
OPENS IN KAUKAUNA

Program of Annual Gathering Will Close Saturday at
Normal School

Kaukauna—Prof. Edgar B. Gordon opened the two-day program of the second annual recreational institute at the Outagamie Rural Normal school Friday with a talk on "Purposes of the Institute before an assembly of more than 200 people consisting of teachers, school officials and student teachers from Outagamie-co."

The two-day institute is being given under auspices of the University of Wisconsin Extension division to show teachers how to extend leadership advantages to the various communities, and how they may call upon the University of Wisconsin for assistance in local projects.

Other teachers who appeared on Friday's program were Mrs. Emily Greeley of the extension division at Madison, and Prof. Marshall C. Greer of Kaukauna.

The institute opened at 9 o'clock Friday morning and closed at 3:30 in the afternoon.

HONORS AWARDED
TO 38 STUDENTS
AT HIGH SCHOOL

Averages for Last Six
Weeks' Period Are Re-
leased by Officials

Kaukauna—Sixteen students of Kaukauna high school received special merits in school work for the last six weeks' period and 2 were placed on the honor roll with an average of 90 or more in all their studies.

Miss Edna Esler was the only senior to receive a special merit in her class, having an average of 94. Seniors placed on the honor roll and the number of subjects carried are: Karl Farwell, four, average 91; Irene Landreman, four, average 94; Miss Mabel Look, four, average 90; Miss Anna Maes, five, average 92; Gordon Nicholson, four, average 92; Miss Catherine Rodell, five, average 94; Leroy Seifert, four, average 93.

Juniors who received special merits are Miss Alice Balgie, five, average 94; Miss Evelyn Gerharz, four, average 92; Miss Gladys Holmeke, five, average 95; Miss Elizabeth Lennert, five, average 93; Sam Miller, five, average 96. Those who were placed on the honor roll are Roland Beyer, four, average 92; James Kavanagh, four, average 92; Miss Frances Rastell, five, average 90.

Five sophomores received special merits. They are Miss Quadine Deebie, five, average 95; Miss Josephine Berens, five, average 91; Miss Margaret Kline, five, average 93; Herman Maes, five, average 92; and Miss Alta Pahl, five, average 92.

Those who were placed on the honor roll were Joseph Kern, four, average 91; Miss Corine Mayer, five, average 93; Miss Rosella Otte, four, average 93; and Miss Carolyn Smith, four, average 91.

Freshmen who placed on the special merit honor roll were Richard Bolling, four, average 92; Miss Marion Lemke, four, average 90; Robert Mayer, four, average 92; Miss Evelyn Miller, four, average 95; and Miss Helen Starke, four, average 94. Honor students were Miss Joy Doering, four, average 91; Miss Mildred Landreman, four, average 92; Miss Johanna Steckelburg, four, average 91; Miss Alexia Stommel, five, average 91; Miss Mary Taylor, four, average 90; and Miss Dorothy Trams, four, average 90.

OUTSTANDING TAX LIST
IN KAUKAUNA SMALL

Kaukauna—Only a few persons have not paid their taxes, according to Joseph Dietzler, city treasurer. He urges them to pay at once at the office of city clerk in the municipal building. The local accounts will be sent in to the county treasurer on March 20. Delinquent taxes have a penalty of 2 per cent from March 1, and after they are sent in to the county treasurer a 5 per cent penalty is charged.

KAU-HI-NEWS PUTS OUT
ITS "CRAZY EDITION"

Kaukauna—The crazy edition of the Kau-Hi-News, weekly high school paper, was edited Friday. The contents consisted of articles just opposite of what they were supposed to be. Miss Edna Esler is editor-in-chief and the faculty advisor is Miss Frances Corry, English teacher.

KIEL WOODENWARE CO.
PRESIDENT IS DEAD

Special to Post-Crescent
Chilton—Henry Mesch, 49, president of the Kiel Wooden Ware Co., of Kiel, died very suddenly at Kiel on Thursday afternoon. He was born in Kiel and lived all of his life there. He is survived by his widow, one daughter and one sister, Mrs. W. Johnson of Kiel. The funeral will be held at 2 o'clock Monday afternoon from the Presbyterian church in Kiel.

Dr. J. E. Reinhold received a letter from his brother Otto in Springfield, N. Y., informing him that Mrs. Otto Reinhold fell in the yard of her home about a week ago and fractured one of the bones in her leg just above the ankle. She is at the home of her son George, and is reported to be recovering nicely. The Reinholds lived in this city for many years before moving to New York. While in Chilton they operated the Hotel Chilton.

Mrs. William Paulsen entertained the past matrons of Calumet Chapter at her home on Thursday evening. After the business meeting cards were played, after which refreshments were served. The next meeting will be with Mrs. A. S. Hipke in April.

Mr. and Mrs. William Knauf left for Milwaukee on Wednesday morning, the former returning home the same day, while the latter went on to Madison to visit her daughter, Mrs. Kenneth Jackson.

The Misses Margaret and Florence Dorschel, student nurses at St. Agnes hospital in Fond du Lac, spent the weekend with their parents, Mr. and Mrs. Oscar Dorschel.

Miss Hannah Kersten of Manitowish, visited at the William Schabach home during the week. Miss Kersten was for many years a resident of this city. She now makes her home with her brother Rev. Theodore Kersten.

Mrs. Lester Hipke was called to Peshtigo on Wednesday by the serious illness of her grandmother.

Mrs. William Staus visited relatives in Milwaukee on Thursday.

Due to the blizzard on Wednesday many farmers along the Kloten and Hilbert roads were hosts to stalled motorists, many of whom were obliged to abandon their cars on the road and seek shelter at the nearest farm home. One farmer had 14 overnight guests and others had them in numbers up to eight.

The Tuesday club was entertained at the home of Mrs. N. A. Bell on Tuesday afternoon.

BIRTHDAY PARTY IS
GIVEN AT KIMBERLY

Special to Post-Crescent
Kimberly—Virginia Bastian entertained at a 5 o'clock luncheon party at her home here Thursday afternoon in honor of her ninth birthday anniversary. Those present were Joyce Bunnow, Amelia Mantel, Jane Ellen Fulcer, Evelyn Brunen, Rose Mary Van Dyke and Alice Stayvenberg.

Mrs. A. Tiedeman visited at the home of Mrs. C. Paulsen at Appleton on Thursday afternoon. On Thursday evening she attended the bridge party at the Masonic temple.

Mrs. J. Demerest and three fingers quite badly injured in an automobile crash recently.

SCHEDULE MISSIONARY
RALLY HERE TUESDAY

Kaukauna—A sub-district missionary rally will be held at Brokaw Memorial Methodist church Tuesday. Cities that will be represented will be Appleton, New London, Neenah, Menasha, Manawa, Stockbridge and Chilton. The morning session will open at 10 o'clock, the afternoon session at 2 o'clock, and the evening session at 7:30.

Dr. J. J. Bushnell of Morningside College, Sioux City, Ia., and Dr. C. J. Hewitt of Philadelphia will be among the principal speakers to appear on the program. Ministers of the churches of the sub-district also will give talks.

OTT CAGERS MAKE
DISTRICT TOURNEY

Defeat Brillion 20-17 in
Elimination Game Friday
Night at Menasha

Kaukauna—Kaukauna high school will be entered in the district basketball tournament at Menasha next week as a result of winning a closely contested elimination game from Brillion Friday evening in Menasha, 20 and 17. The game was fast as both teams relied on offensive play. Kaukauna missed a large number of tries for the basket but was able to keep on the long end of the count.

The local high school band and orchestra members are practicing for the spring concert to be held April 4. This concert will consist of band, orchestra, Glee club and solo members. The concert is to be given to help send the band to the state tournament.

C. F. Otto of Wausau was the speaker at the regular Kiwanis club meeting this week. Safety was discussed by the speaker and the club was urged to make safety a part of their work.

The local basketball team will compete in the district basketball tournament to be held at Algoma on March 14, 15, 16. The local team will be composed of the following members: Merrill and Harold Thiede, Robert Volk, Willis Ness, Mackie Miller, Ruben Abel, Roger Ruch and Harry Sherman. The winning team in this tournament will compete in the state finals at Madison.

The Ladies' Aid society of the Methodist church will meet in the church parlors on March 12. The hostesses will be Mrs. Del Carter, Mrs. James Veitch, Mrs. Perry Culbertson and Miss Elizabeth Neill.

MANY SOCIAL MEETINGS
HELD AT BLACK CREEK

Special to Post-Crescent
Black Creek—Mrs. E. S. Maas and Mrs. Olin Wilson were hostesses at a five hundred party Thursday evening at the former's home. The guests were Mesdames N. A. Shauger, C. J. Burdick, John Homrig, Laurence Wickesberg, J. B. Huhn, E. E. White, Harry Leatherbury, Henry Harverson, Howard Keeler, Sherman McGlin, Russell Husar, Ivar Bergsaken, L. J. Lane, M. C. Monroe, F. J. Weisenberger, Gertrude Maconeghy, M. Breitenbach, Irving Grunwaldt, Julius Sassman, Donald Lapp, O. H. Kringle, John Haus, M. C. Kluge, R. H. Gehrke, Misses Ruth Young, Evelyn Ahern, Dorothy McMahon, Elizabeth Huhn, Bernice White and Ella Pasch. Prizes were won by Miss McMahon, Mrs. Huse and Mrs. Huhn.

The Ladies Aid society of St. John church held a meeting Wednesday afternoon at the parish school house. Readings were given by Mrs. Edward Herman and Mrs. John Minischmidt. Hostesses were Mesdames Walter Blake, Frank Planert, William Gansel and Fred Zuleger.

The Ladies Aid society of Immanuel Lutheran church held a meeting at the parish school Wednesday afternoon.

Mrs. Fred Sassman entertained the Ladies Aid society of the Methodist church, at her home Wednesday afternoon. Plans were made for a dinner to be held at the church parlors, March 14.

H. M. RIETZ HURT
H. M. Rietz, local flour and feed dealer, broke two bones in his right arm Thursday afternoon when he came in contact with a belt on one of his electric motors.

Mrs. Ruppert Burdick of Appleton, submitted to a serious operation at Theda Clark hospital, Neenah, Friday morning. She will be remembered here as Miss Nellie Little.

Jimmie, 6-year-old son of Mr. and Mrs. William Le Capitaine, is critically ill at his home.

Mr. and Mrs. Albert Little visited their daughters, Mrs. E. Burdick of Appleton and Mrs. Harry Eberhard of Neenah, Sunday.

The village school was closed Friday. The teachers attended a convention at Kaukauna Friday and Saturday.

Mrs. William Schmidt spent Thursday afternoon with Mrs. J. H. Walstege.

Olin Wilson is ill at his home.

SUES SELF
Fresno, Calif.—In a suit for divorce, filed against his wife, Alice, Harold Foxwell petitioned the court to order him to pay her \$25 a month for his support of their minor child.

SEYMOUR GETS NEW
CANNING FACTORY

Modern Structure Will Re-
place Building Now Being
Torn Down

Seymour—The old frame building belonging to the Seymour Canning Co., is being torn down and will be replaced by a two-story modern structure. The building is to be 112 feet long and 58 feet wide of concrete and brick. The company plans to can peas this year and the acreage is being contracted for now. Last year the company canned beets, beans and kraut and vegetable soup.

The local high school band and orchestra members are practicing for the spring concert to be held April 4. This concert will consist of band, orchestra, Glee club and solo members. The concert is to be given to help send the band to the state tournament.

C. F. Otto of Wausau was the speaker at the regular Kiwanis club meeting this week. Safety was discussed by the speaker and the club was urged to make safety a part of their work.

The local basketball team will compete in the district basketball tournament to be held at Algoma on March 14, 15, 16. The local team will be composed of the following members: Merrill and Harold Thiede, Robert Volk, Willis Ness, Mackie Miller, Ruben Abel, Roger Ruch and Harry Sherman. The winning team in this tournament will compete in the state finals at Madison.

The Ladies' Aid society of the Methodist church will meet in the church parlors on March 12. The hostesses will be Mrs. Del Carter, Mrs. James Veitch, Mrs. Perry Culbertson and Miss Elizabeth Neill.

LITTLE JOE
FOOTBALL COACHES
WON'T HAVE MUCH
TROUBLE MAKING
BOTH ENDS MEET
NEXT FALL

Minneapolis, Minn.—(AP)—Martha Bauck knows her dictionary, and when some one advertises a product as permanent it must be just that or Martha wants her money back.

So Martha asked Judge Levi M. Hall of conciliation court, to decide how long is permanent when applied to a permanent wave. She is suing a hair establishment for \$7.50 which she paid for a "permanent" but which she claims, was at least only transitory.

Awed by the intricacies of the case, Judge Hall took it under advisement.

67 ARRESTED BY STATE
DRY MEN LAST MONTH

Madison, (AP)—During the month of February, the state prohibition department arrested 67 persons, saw 35 cases disposed in the courts and turned in \$7,100 in liquor fines to the state school fund income. This was revealed by the monthly report Friday.

Twenty-one illicit liquor cases were under bonds totalling \$12,000 during the month, and the liquor arrests netted 82 gallons of liquor, 760 gallons of mash and five stills.

The largest amount of "business" was in LaCrosse county, where there were 18 arrests and a total of \$2,450 fines paid. There were but 21 gallons of liquor confiscated in all these cases, however.

Marathon county contributed 8 arrests for the next "high."

MRS. LUCASSEN AGAIN
IS FORESTERS' HEAD

Little Chute—Mrs. Mary Lucasen was re-elected chief ranger of the Women's Catholic Order of Foresters at the regular monthly meeting held Wednesday evening at the Forester hall. Other officers elected are: Mrs. Catherine Arts, vice-chief ranger; Mrs. Stena Jansen, recording secretary; Mrs. Marie Coppus, financial secretary; Mrs. Anna Hammen, treasurer; Mrs. Marie Hermen, Mrs. Anna Vander Velden, Mrs. Anna Van Dyke, trustees; Mrs. Minnie Lamers and Mrs. Anna Vanden Boom, conductors; Mrs. Susan Hermen and Mrs. Mary Van Dinter, sentinels.

Mrs. Mary Lucasen was appointed delegate to the state convention which will be held at Stevens Point in June. Mrs. Stena Jansen was appointed alternate delegate.

Members of the American Legion auxiliary will hold their regular monthly meeting Tuesday evening, March 12, at the Forester hall.

Arnold Gloudeumans was a caller in Beaver Dam Wednesday.

Anton A. Hietpas is confined to his home because of illness.

C. E. Hanselman of Chicago, transacted business here Thursday.

Miss Hattie Vandenberg was a guest of relatives and friends in Green Bay Thursday.

Herbert Hermen of Racine, is spending a few days at the home of his mother, Mrs. Martin Hermen.

Miss Prudence Gloudeumans called on friends in Green Bay, Wednesday.

A son was born Tuesday to Mr. and Mrs. Fred Steffens.

Clement Kitzinger and George Theiss of Appleton were guests of friends here Wednesday.

STOCKBRIDGE WOMAN'S
MOTHER SERIOUSLY ILL

Stockbridge—Mrs. Robert Mortell and daughter, Catherine, left on Wednesday for Watertown where Mrs. Mortell was called by the serious illness of her mother, Mrs. William Tyson.

Miss Lucy Schneider, who is in training as a nurse in a Green Bay hospital, spent the weekend at the home of her parents, Mr. and Mrs. Emanuel Schneider.

Mrs. Garfield Merrill, apatient in the St. Agnes hospital at Fond du Lac, is in a serious condition. She is suffering from heart trouble and the doctors do not hold any hope for her recovery. Her mother, Mrs. Adeline Welch was called to Fond du Lac this week.

Mr. Al Senger of Fond du Lac, was a caller here Wednesday.

Appoint Majors In Chamber Of Commerce Campaign

JOHNS NAMES MEN WHO WILL DIRECT C. C. SALES ARMY

Alexander Karr, Educational Director, to Speak at Tuesday Meeting

E. A. Walthers, Fred Schlitz, A. B. Scheurle and W. E. Smith, have been appointed majors in the sales army of the chamber of commerce expansion program, according to Joshua L. Johns, general of the sales army, announced Friday. The majors each will have charge of a division for the general solicitations during the week starting March 18, and each will have six captains working under him.

The majors met late Friday and selected the names of captains for the teams. The majors and captains will meet at 4:30 next Tuesday afternoon at expansion program headquarters in the Insurance building, when team workers will be selected. Each captain will have six lieutenants serving under him, the entire sales army composing about 172 persons.

Plans now are being perfected for the big mass meeting at the Conway hotel next Tuesday evening. The meeting will begin at 7:45. All members of the chamber of commerce and other persons interested in the welfare of the city are asked to attend the meeting.

A complete outline and explanation of the forward expansion program will be given at the meeting. The principal speaker will be Alexander Karr of Chicago, who has had more than 25 years experience in the field of community problems and city building. He has spoken in thousands of the large cities of the country.

There will be no soliciting at the meeting, according to chamber of commerce officers. Gustave Keller, general chairman of the expansion program, will preside. Several short talks by representative citizens also are on the evening's program.

SCHOOL DEBATERS CLASH ON MONDAY

Debate Between Appleton Teams Will Be Only Decision Event of Season

Appleton high school debaters will give their only decision debate of the season Monday evening in the high school auditorium. The debate will be between the negative and affirmative teams of the high school. Judge F. V. Heinemann will be the judge. All conference debates are non decision affairs.

The debate will be on the second question of the conference, "Resolved: That Municipal public ownership and operation of electric light and power utilities be adopted in Wisconsin." Ruth Cohen and Merlin Pitt compose the negative team, and Virginia Ritten, Lawrence Morris, and Norman Clapp will handle the affirmative side. Miss Agnes Huberty, high school debate coach, will act as chairman.

The Girl Reserves, Talsman staff members, and Hi-Y Club members, will attend in groups. The debate will start at 7:30. Friday afternoon the affirmative team of Appleton high school met Sheboygan high school in the last inter-school debate of the year. Virginia Ritten and Norman Clapp represented Appleton and Isabel Truchel and Charles Seidenspieler, Sheboygan.

Named Sales Army Majors

The four majors of the chamber of commerce expansion program solicitation army were appointed Friday by Joshua L. Johns, sales army general. They are Fred Schlitz, upper left, E. A. Walthers, upper right, A. B. Scheurle, lower left, and W. E. Smith, lower right. They will organize the sales division for the solicitation drive which will begin March 18.

ROTHSTEIN CASE BROUGHT TO FRONT BY WALSH KILLING

New York Police Again Stirred by Murder of Gambler's Bodyguard

BY LEMUEL F. PARTON Copyright, 1929, by the Consolidated Press Association

New York — The killing of Tom Walsh, Arnold Rothstein's bodyguard, in Miami, has shifted the New York police to new explorations of the underworld and has brought the Rothstein case sharply to the front again, just as it was being forgotten.

It was the killing of Arnold Rothstein, gambler and racketeer, early in November, which aroused New York more than any crime since the shooting of Herman Rosenthal, easted Police Commissioner Warren out of office and ushered in Commissioner Whalen with his cyclonic assault on "crime dens." The clean-up campaign obscured the Rothstein case and with the election in the offing the affair was being conveniently forgotten.

Commissioner Whalen, on his return from his Florida vacation, February 25, said rather casually, that he "had the case well in hand." George A. McManus, arrested weeks after the crime, still is in jail, awaiting trial, with the evidence against him admittedly inconclusive, while the police are searching for Hyman (Gillie) Miller, race track gambler, who, like Walsh, was in the hands of the police soon after the shooting.

After the shooting of Rothstein, it was recalled that the gambler, in his racketeering operations, had been associated with "Legs" Diamond and his gang. The police took this into account by an invitation, to drop in some day and talk it over. It is now noted that Walsh was a member of the Diamond gang, probably having been supplied to Rothstein by Diamond, who made a business of providing bodyguards to persons in dangerous occupations.

SEARCH GANG INTEREST Spurred by Commissioner Whalen's demand for results, the police are now delving into rather ancient New York gang history, with which "Legs" Diamond was one of the few connecting links. Diamond served as bodyguard to Jacob Ogden, wet wash racketeer killed a year and a half ago. Ogden, with "Dopey Benito" and Monk Eastman had supplied Hessians in labor controversies, taking money from either side or both, this enterprise later taking the form of racketeering. It was against this background that Walsh appeared, having been discharged five times in succession, after arrests on felony charges, during the period of his association with Rothstein. These discharges were after he had served two prison terms, one in the workhouse and one other in the penitentiary.

With this record Walsh went on his way, after a little perfunctory questioning, as did Hyman Miller and numerous others picked up after the Rothstein shooting. Arthur L. Clark, wounded in the Walsh shooting, was identified as an insurance agent. Arnold Rothstein also was listed as an insurance man.

this doing a favorite camouflage for the versatile midtown operatives who cover a long string of complicated rackets, from hi-jacking to drugs by "real estate" and "insurance" signs in big office buildings.

The Walsh killing has set the police and district attorneys office to work on side trails abandoned soon after the Rothstein killing. Assistant District Attorney Peccia said his office had been searching for Walsh, who had been arrested by the police Nov. 17 and released a few days later.

MANY GAMBLERS GONE The winter migration to southern race tracks and to Havana has lured away prominent racketeers and gamblers whom the police would like to question, and in justice to the New York police it must be admitted that their work has been made more difficult by seasonal absence of so many important personages.

The Walsh shooting is the first instance of Miami being disturbed in its winter pastimes by northern gangsters. Al Capone's beautiful white pillared island home is not much more than a stone's throw from President Hoover's vacation residence on Belle Isle. Florida citizens say Capone has behaved admirably in Miami and they have no complaint to make. The jail also games, horse races, dog races, cock fights and other such diversions have made it a big year in Miami this year and have drawn a large number of New York's gaudiest playboys down there, including a lot of Rothstein's old friends. The New York police can't be expected to do much until they get back.

Elizabeth Gannon, 312 W. Prospect-ave, submitted to an operation Saturday morning at St. Elizabeth hospital.

Ambrose J. Eiten of Denver, Col., formerly of this city, is visiting here.

APPLETON MUSIC LOVERS CHARMED BY ROSA PONSELLE

Enthusiastic Audience Demands Innumerable Encores from Artist

From the moment of her dramatic entrance, gowning in a sweeping black costume dress, with a red rose at the curve of her neck setting off her black hair, until the echo of her last encore had died away, Rosa Ponselle, world's most famous dramatic soprano, enthralled her audience at Lawrence Memorial chapel Friday evening. The applause was wildly enthusiastic, and though the artist signalled the audience time and again that her program was ended, she was forced to return

to acknowledge the continued clapping.
Miss Ponselle's performance was a quickly moving pot-pourri of sauciness, imperiousness, pleading, fire and tenderness, and whether she sang simple songs or dramatic aria her artistry was perfect. The quality and extraordinary range of her voice and her masterful control of it combined with the care she gave each note, every tone and every word, made her performance one of the most charming Appleton music lovers have ever heard.

The clarity and power of the prima donna's voice and her great dramatic skill was most strikingly brought out in the operatic aria, "Erani Involami." In this number she enacted with amazing force the part of the distracted princess who in terror implodes her lover to flee with her and escaped the foreboding threat of death, and the ease with which she sang gave evidence of the great reserve power that made it possible for her to sing the part of the erring priestess in "Norma." In direct contrast to this operatic number were soft, melodious

numbers like "Wings of Night" by Winter Watts, "Eros" by Gies; Schumann's waltz "Stille Thranen," and Caccini's pastoral "Amarilla." The singer portrayed the deepest feeling, and commanded the greatest sympathy from her listeners, in the singing of Sadero's "Lullaby," though one of her encores, "O Sole Mio," received the heartiest applause.

Two groups of piano numbers were played by Miss Ponselle's accompanist, Stuart Ross. His selections balanced the singer's program in a delightful manner, and he played with an ease and a skill that won him a number of encores.

SIX Y DORMITORY MEN IN CHECKER TOURNAMENT

Six dormitory men of the Y. M. C. A. have entered the Dorm Men's Checker tournament which is to get underway within next week, according to O. W. Bauer, membership secretary of the association. Last year Joseph Shields won the inter-association championship. Edward Kofal won second place.

WISCONSIN WEATHER
Fair tonight and Saturday; rising temperature.
GENERAL WEATHER
The high pressure noted yesterday morning over the northwest has moved to the upper Mississippi valley and adjacent region this morning and developed great strength. It is accompanied by fair and cold weather and is in position to largely dominate conditions in this section yet tonight. It is followed by lower pressure now developing over the north Pacific coast region which is expected to advance eastward. Generally fair weather may be expected in this section tonight and Sunday, with slowly rising temperature will start at 7:30.

MUST FILE INCOME TAX REPORTS BY MARCH 15

State income tax blanks must be filed on or before March 15 with Leo G. Toonen, assessor of incomes, according to a warning issued from the assessor's office Saturday. Mr. Toonen pointed out that income tax blanks which are placed in the mails on March 15 but reach his office on March 16 or 17 will be considered delinquents and a fine of \$5 will be assessed against the person making this late filing. Mr. Toonen said that all blanks must be in his office on March 15. All delinquents are fined \$5.

The youngsters were drilled in the various parade formations by M. G. Clark, valley scout executive. John Paul Jones and Robert Schneider of the Lawrence Conservatory of Music were in charge of the practice. They inspected the lips of boys in order to determine who the buglers would be.

45 SCOUTS TURN OUT FOR FIRST PRACTICE

Forty-five scouts turned out for the first practice period of the valley council boy scout bugle and drum corps at Armory G Friday evening.

Appleton Loses Third Game In Fox River League

FOND DU LAC FIVE TRIMS SHIELDSMEN FRIDAY, 22 AND 19

Kennedy, Fondy Forward, Runs Away from Orange and Counts 13 Points

STANDINGS	W. L. Pct.
Manitowoc	9 1 .90
Appleton	6 3 .667
Oshkosh	6 3 .667
E. Green Bay	5 3 .625
W. Green Bay	4 5 .445
Fond du Lac	4 5 .445
Marquette	3 5 .333
Sheboygan	0 9 .000

FRIDAY'S RESULTS
Fond du Lac 22, Appleton 19.
Manitowoc 48, Marinette 21.
Oshkosh 21, West Green Bay 13.

A COUPLE little shavers, not much bigger than an average second team player showed the guards on the Appleton basketball team what a fine lot of truck horses they turned out to be Friday night. Yes, Fond du Lac beat the Orange, 22 and 19.

A youngster by the name of Kennedy was the most persistent little fellow to raise havoc with the Appleton offense and if he's still in high school next year and playing basketball for the boys down the lake, just jot down the fact that Fondy will be up among 'em when the season is over.

This Kennedy cut it upon himself to score five field goals and three throws for Fondy for a total of 13 of the victors' points and if it hadn't been for some fast sprinting by Kunitz and Schaefer, he'd probably have counted a half dozen more times. Kennedy would grab the ball from under an Orangeman's very nose and then scamper like a scared rabbit for the basket. And when he approached the board he'd foul the defender and shoot from an unorthodox position—and the ball seldom missed.

Kennedy was aided in his efforts by another little fellow, Tolzman, by name, who plays guard but who comes crashing down the floor in Coach Fruth's plan of things and at last Friday night, was doing clever work. He caged three baskets.

Just what caused the Appleton five to be caught flatfooted so often during the evening is a question. They were too slow to catch cold Friday and when they got the ball and started down the floor something usually happened before they got set for a shot. True, they tried plenty and missed, but so did Fond du Lac.

The trimming relegated the Orange down into a tie for second honors and if they don't snap out of the daze by next Friday they'll probably find themselves among the general run of teams rather than up in select circles. They now have gone into a tie with Oshkosh for second place and will probably be joined by East Green Bay after Saturday. The Bays met Marinette at Green Bay Saturday night.

At the time that things weren't going to be pleasant for the Orange during the evening's proceedings came shortly after the opening whistle when Fruth's ponies galloped down the floor helter-skelter, and only through a little hard luck kept from caging a couple baskets. Appleton took the lead first but failed to hang onto it when Tolzman caged a field goal and Kennedy rattled up five points on three throws and a field goal. The quarter ended 7 and 4 in favor of Fondy.

Appleton picked up five points in the second quarter and Fond du Lac three, Kennedy getting another field goal. The half-way mark showed Fondy leading by a lone point, 10 and 9.

To begin the third quarter Coach Shields sent Penny Raftoff to center, but the little fellow just scampered around him and Appleton continued to trail at the end of the period, 17 and 14. Kennedy had kept himself before the fans by getting three baskets, two in rapid fire order. A dash to overcome the lead netted Appleton a tie in the fourth period and then Mullen made a free throw on Raftoff's foul. Fondy had a one-point lead at that stage and Tolzman made himself obnoxious by getting two pretty field goals while Berg counted one for Appleton and the final score was 22 and 19.

POSTER DEMONSTRATES MANUFACTURE OF RUG

"From Trees to Rugs" is the title of a poster made by Charles Casperson in the seventh grade science class at Wilson Junior high school. The poster demonstrates the process through which a piece of wood goes until it becomes a woven rug.

Another well-planned poster, made by Harry Rhodes, shows the substitutes for wood: bricks, copper, iron, cement, steel, coal and iron furnaces.

Posters on Forests, including the uses of trees and the kinds of forests, were made by Florence Hooyman, Virginia Melham, Lucille Graft, Joanne Lewis, Jane Hoffman, John Lauer, John Felton, Charles Casperson, Harry Rhodes, and Moby and Harry Strick.

Cubs, Pirates To Stage Great Opening Series

BY JOHN B. FOSTER

LOS ANGELES—As the two probable leaders of the National league stand now the Chicago Cubs seems to be a better team than the Pittsburgh Pirates by about half of a baseball inch. That condition may change before the teams leave California yet it is not probable.

Both sides are on fighting edge and both are anxious to get into their best condition for the opening of the race between them in Chicago. The Chicago park will be sold out on opening day. If baseball were played on water they would need a quarter section of Lake Michigan to accommodate the crowd.

The argument is made that the Chicago pitchers are the weakest part of the team. Managers of other clubs think Root and Carlson will not come back. Joe McCarthy, Cub manager, would like to see them come back. So would the players, but McCarthy is building a pitching staff from his youngsters. He will not be backward in using them either.

Lautenbacher, the Brooklyn boy, is fit now. He is going so good that McCarthy has told him to take it easy and not overtrain. If he can pitch during the season as well as he has pitched at Catalina, he will win some games for the Cubs this year. There are other young pitchers who look good, but this one is very good.

The Cubs have a hitting outfield and they have a young outfielder by the name of Moore who is coming into his own after having been carried for some time by them.

With the Wainers out of it for the moment the Pittsburgh still have a fair outfield in Frantman, Brickell and Cramer, but not as sturdy a trio as the Cub outfield of Cuyler, Stephenson and Hack Wilson. The last named two will play a strong game in 1929 if they are not injured.

It is not certain that Beck will play at third base. It has been said that he is a fixture, but he will have to earn his place. Before the Cubs get back to Chicago McCarthy will have made up his mind about his third baseman, but those who have put Beck down as a sure thing are premature.

If within a fortnight Stroner has shown that he can play third for Pittsburgh, the Pirates will have an infield that can thump the ball. Sheely, the old White Sox first baseman, seems to have made the Pittsburgh infield anew, and it will be a better one than it was last year when Wright fell down to the dismay of Pirate supporters.

TWO PIN LEAGUES FINISH SCHEDULES

Buckeyes Win Lutheran Brotherhood Championship; Badgers Second

Slowly but surely, bowling leagues in the city are completing their schedules, the two latest groups to finish being the Inter-Fraternity league of Lawrence college and the Lutheran Brotherhood. The frat league season ended Thursday when the Phi Kappa Tau team rolled and won two games from the Theta Phis to break a tie.

INTER-FRATERNITY STANDINGS

ELECTS OFFICERS

Fourth Ward Organization
Will Enter Team in Inter-
county League

ATHLETIC CLUB ELECTS OFFICERS

Fourth Ward Organization Will Enter Team in Inter-county League

The few warm days early in the week started Fourth warders thinking about baseball and being serious minded boys members of the Appleton Athletic Club met at McKinley Junior high school and laid plans for the coming season's activity. About 25 members of the club were present.

C. R. Furlminger was reelected president of the club, Reuben Schuster, vice president, and Nick Green, secretary and treasurer.

Otto Stornagle, former valley league pitcher and star will manage the Athletic club team this season. The team ended up in second place in the Inter-county league last year and indications are that a strong team will be erected this summer.

Short Sports

NOT SO IMPRESSIVE
Although the state of Indiana is generally regarded as the hotbed of basketball, its two leading schools, Purdue and Indiana, have won only two Big Ten titles in 23 years. They tied for four others.

FOURTH CLUB FOR COLLINS

Rip Collins, now with the St. Louis Browns, has seen previous service with Detroit, New York and Cincinnati.

MEHLHORN ISN'T SORE

Bill Mehlhorn isn't sore because he was left off the Ryder Cup team. He says more people heard of him because he was left than would have if he had been chosen a member of the team.

DESERVES A VACATION

Owners of Tippley Wittich, 14-year-old race horse, recently retired the famous racer from active service. He will be remembered as one of the outstanding horses of American racing.

LANE PLAYS BASEBALL

Myles Lane, the former Dartmouth hockey player who has been playing professional hockey this winter, was offered a contract by the Newark Internationals recently.

CRITZ CAPTAINS REDS

Hughes Critz, star second baseman, will captain the Cincinnati Reds this year.

BADGERS WILL END SEASON'S CAGING WITH CHICAGO GAME

Doyle, Tenhopen, Ellerman and Miller, Play for Last Time

PROBABLE LINEUPS
WISCONSIN: Foster, F. Mathhusen, F. Tenhopen (C), G. Chmielewski, G. Ellerman, G. Fish, G. Pauli.
CHICAGO: Kaplan, F. Changnon, G. Crawford, G. Pauli, G. Getchell (St. Thomas).

MADISON—A slice of the Western conference championship still remains for the Wisconsin basketball team if the Meannwell boys defeat Chicago in the belated season's final scheduled for the old Armory gymnasium here Saturday evening. The Badgers are determined to atone for their loss at Ann Arbor Monday and Nels Norgren's five are likely to find them at top form.

Four members of the Cardinal squad will make their last appearance for Wisconsin in the Maroon game. The two co-captains, John Doyle and Elmer Tenhopen, Ray Ellerman and Lycan Miller comprise the quartette which graduates this spring. All have worked three years under Meannwell. Doyle and Ellerman, two excellent defensive players, have contributed much to keep their team in the title race.

Tenhopen, a mediocre performer until this winter, rates as one of the best centers in the Big Ten. His most notable achievement was the outscoring of "Stretch" Murphy in Wisconsin's two victories over Purdue. Miller has been a dependable utility man for "Doc" Meannwell, filling in at any position where his driving dribble and accurate shooting eye could best aid the Card's attack.

Going into the closing contest of their schedule the Badgers have a record of 14 wins in the 16 games played since early December, the Wolverines being the only team successful against them. Harold "Bud" Foster, the ranking forward of the conference, should have no trouble in clinching second place in individual scoring. He has averaged better than eight points per game.

APPLETON Y CAGERS LOSE TO GREEN BAY

Invaders Show Powerful Offense and Win for Second Time, 47-23

Green Bay Y. M. C. A. basketball team rattled up another win over Appleton association team Friday night in the Appleton gymnasium. The score was 47 and 23, a bit of improvement over the 49 to 14 trimming the locals took at Green Bay several weeks ago.

The invaders are almost in a class by themselves, having beaten Lawrence college in one of the Vikings' practice games and having chalked up wins over several other highly touted teams that have toured the state. Reports are the team will be entered in several Y. M. C. A. meets this spring and expectations are they will give a good account of themselves.

The Bays used 11 men in their evening's workout and they counted no less than 22 field goals and three free throws. The score at the half was 21 to 15 in favor of the Bays. Wolfe, Monteith and DeJorge were the high scorers for Appleton with three field goals each. The former two also garnered a free throw apiece.

MINNESOTA SWIMMERS BEAT BADGER FISH

Minneapolis (AP)—Minnesota's rookie swimming team won a 47 to 24 victory over Wisconsin in the Gopher pool Friday both teams closing their dual meet schedules prior to the Big Ten tank carnival at Chicago, March 15 and 16.

Seven of the eight events, including both relays, were won by Minnesotans.

SUPERIOR TEACHERS SECOND IN LEAGUE

Superior (AP)—Superior Teachers college assured itself of second place in the Teachers conference here Friday night by a 53 to 16 win over Eau Claire teachers. It was the final game of the loop season.

Connie Mack Denies Athletics Lack "Guts"

Veteran Philadelphia Manager Says None of Boys Are Yellow

BY HENRY L. FARREL
ST. MYERS, Fla.—The only story that can be written about the Philadelphia Athletics is one about heart.

Nearly every one connected with baseball thinks that Connie Mack's won the American League pennant last year if they had a heart. The old man had been building and hoping and praying for 14 years for a pennant winner. He had broken up one of the greatest teams that baseball ever knew and he had announced that he was good enough to tear down a great team and build a greater.

Last year he was up there fighting for the pennant, and plenty. He didn't have a bunch of young college fellows fighting for him, however. Apparently he lost faith in youth and enrolled two of the greatest old-timers in baseball, Ty Cobb and Tris Speaker.

It looked as if the Athletics were a cinch after they recovered from a very poor start. They finally overtook the Yankees team that a lot of the business men in the game thought should be broken up for the business interests of the league, and they went into one of those crucial series with the Yankees. The pennant and the world series dough depended upon the series and the Mack men knew it. And to put it kindly, the Athletics folded up. They were knocked for a loop in that one series and they never recovered.

"If I didn't have confidence and complete confidence in every man on my ball club, we wouldn't be on the club," Mack said when I asked him rather delicately about the yellow stuff.

"I have heard those stories of course," he said. "And I paid so much attention to them that I never won a word to those players. I knew that they knew me and that when they were hearing nothing from the boss they were doing their work."

"There is a line of distinction to draw about courage in baseball, and I guess, in all other sports. I wouldn't call a baseball player yellow or a fighter yellow because, if they were yellow, in the common understanding of the word, they wouldn't be in the business."

"There is such a thing as temperament, however. I'm an old Irishman and I think I know something about courage and temperament, too."

With due respect to the opinion of many ball players I know, I do not believe there is much yellow in any player on the Philadelphia team. At least, I wouldn't call any of them that to their face. And the real answer, I wouldn't imagine, is the answer of Connie Mack to the question I put to him about the courage of his ball club.

"I'm an old Irishman and I have guts and I won't have anyone around me who hasn't got guts."

Well, Lou Misses One

Apparently Lou Gehrig didn't knock the cover off the ball he had just swung at when a cameraman snapped this photograph at St. Petersburg, Fla. That should be good news for American League pitchers. The big first-sacker of the Yankees does miss one now and then, and they say he is hitting 'em as hard as ever this season. Note Lou's swing. Also how rookie catcher Jorgens is going after what may have been a foul ball.

Training Camp Gossip

Miami, Fla.—The Cincinnati Reds were without the services of Val Picinich, veteran catcher Saturday at the opening of the exhibition season for the Red Legs, with the Philadelphia Athletics. It appeared, too, that Picinich's absence is not assured in the near future, since salary differences have grown serious.

Dallas, Tex. (AP)—The Chicago White Sox have started their spring exhibition series with a victory. With George and Leslie Cox turning in four hit pitching, the White Sox easily defeated the Dallas Steers, 7 to 2, in the opener Friday. Manager Lena Blackburne's men made 13 hits and committed no errors.

Avalon, Catalina Island, Calif.—(AP)—Joe McCarthy's Cubs already have demonstrated that they have a "murderer's row" of their own for 1929. Eighteen hits rattled off Cub bats Friday as they defeated Los Angeles, 11 to 6, in their first exhibition game.

St. Petersburg, Fla. (AP)—Babe Ruth's New York Yankees' scrub team finally has beaten the regulars. Most of the credit is due to Gordon Rhodes, Pacific Coast league recruit, Rhodes, pitching the last three innings of seven inning game, allowed the regulars only one hit and no runs.

Washington (AP)—There is not a sore arm among the Washington pitchers at the Tampa, Florida, training camp and Manager Walter Johnson has told the three rookies, Jim Weaver, Paul Hopkins and Guy Cantrell, who are slated to pitch against the Tampa club in the first game of the season Sunday that they might try curves if they wish.

Fort Myers, Fla. (AP)—After losing two straight to the St. Louis Nationals, the Philadelphia Athletics said farewell for the present to the damaging Cardinals and Saturday turned toward Miami to tackle the Cincinnati Reds. The Nationals took Friday's game 11 to 6.

San Antonio, Texas (AP)—John McGraw is beginning to fear that his New York Giants regulars are getting into condition too quickly. The weather has been fine here ever since the training season began and with two workouts daily the players have rounded into great form.

Fights Last Night

San Francisco—Rene De Vos, Belgian and Jack Malone, St. Paul, drew.

San Diego, Cal.—Dynamite Jackson, Los Angeles, outpointed Joe Lohman, Toledo (6).

Hollywood, Cal.—Mushy Callahan, Los Angeles, junior welterweight champion stopped Arizona Joe Rivers (9).

Question—Bases are full. One is out. Batter bunts on the third strike but the ball rolls foul. All runners advance. The man on third scores what is claimed to be the winning run. Umpire rules batter to their bases. Is he right?
Answer—Yes. The ball was foul and the runners may not advance and the batter is out because he tried to bunt on the third strike.

Question—Which is reckoned to be the best basketball team west of the Mississippi River?
Answer—This is debatable, but the Montana State Bobcats would probably give any team of that region or any other a tussle.

Question—What happens when one umpire calls a balk and the other says there has been no balk?
Answer—The umpire who calls the balk has a perfect right to do so and the other has no right to rule against him.

DANCE CINDERELLA EVERY SUNDAY

Young Heavyweight May Steal Samson's Stuff

BY JOHN J. ROMANO

Copyright 1929

NEW YORK—If the fans get a peek at a bearded individual climbing through the ropes some evening the chances are they will think a member of the House of David flock has forgotten his vows and decided to try his fortunes in the roped arena. The guess will be wrong. It will be none other than Ernie Schaaf, the brilliant young Boston heavyweight, who has slowly but surely been making his way to the top of the heavyweight rung. Ernie is managed by Phil Schlossberg, former champion of Uncle Sam's sea forces. One evening Phil and a bunch of shipmates on leave in Paris witnessed the opera Samson and Delilah. Schlossberg was impressed with the wealth of Samson's strength and began to think deeply when he saw what a weakening Samson was when his hair was shorn. "If Samson was so strong with all that hair the same should apply to me," reasoned Phil.

And so, if it comes to pass that Ernie Schaaf's vision seems a bit off, his strength is not what it should be, the fighter will have to go into retirement until he cultivates a mass of hair worthy of the Samson of old.

GEORGE VEENCKER PROVES THAT HE IS A GREAT COACH

Defeating a Wisconsin Team Twice in a Season no Mean Feat

BY LAWRENCE PERRY

NEW YORK—As Michigan and Wisconsin are clinched in a tie for the Western Conference basketball championship, one name emerges out of the hectic competition which has characterized the race in the midlands this season—George Veencker.

He is the man who piloted the Michigan five through its extraordinary season, beginning his work, unheralded and unsung, with a bunch of material which promised the Ann Arbor institution nothing better than a mediocre season.

Defeating the powerful and versatile Wisconsin five twice in a row was a real feat and made of Veencker the sensation of the year in conference basketball.

This coach learned the game in the high school at Sioux Falls, S. D., and the Michigan authorities must have been discerning to pick a tyro in big time coaching who leaped into the game at Ann Arbor like Minerva from the head of Jove, fully armed.

Wisconsin's return to greatness in a game wherein so often she has been supreme was of course gratifying to Badger enthusiasts and the credit was greater inasmuch as the competition was keener this year than ever before. Michigan, Purdue, Indiana and Northwestern were all represented by remarkable fives and Chicago was the only easy mark in the Big Ten.

Speaking of Chicago, President Kinley of Illinois took a mean swipe at the Midway institution in his speech before the St. Louis Illinois alumni the other night.

"According to some Chicago papers," he said, "one of our neighboring universities had a poor football season because its students are scholars rather than athletes. Let me say that we do well at Illinois, all the things we undertake."

Then Bud Zuppke made a speech and he turned loose in a manner which suggested that the approach of the vernal season has affected his artistic soul, loosening his fancy and coloring his philosophy.

Here are some gems culled from his address:
"Great leaders all have been geniuses who have enjoyed tremendous health."
"We have some real men in the Mississippi Valley, the land of tall corn yields forty six gallons to the acre."
"Coach Andy Smith went to California—then he died."
"Knut Rockne, the lunch bag of Notre Dame, a brutal game, but brutes can't play it."

Lefty's Aces Won 22 Games This Year

Kimberly—During the past week Kimberly Club Seconds, or Lefty's Aces, made a three game tour and won all of the games played. On Tuesday evening the Aces let the prisoners of the Green Bay reformatory down in good by defeating them 33 to 24. It was the second defeat for the prisoners this year, having been outclassed only once by a Green Bay city team. Joe Gossens of the Aces was high scorer by caging seven field goals and one free throw.

Wednesday evening the Aces travelled to Forest Junction where they met the Parillon Clippers of that city. The game was fast throughout. The score ended 24 to 12 in favor of the Aces. Again Gossens was the high scorer of the game, this time caging six field goals.

A game Thursday evening in which the Aces beat St. Joseph athletic club, Two Rivers, 32 and 15 ended the season. The Aces boast a season's record of 22 wins out of 26 games.

NEWSPAPER ARCHIVE

\$5,634,000 DUE
BADGER SCHOOLS
UNDER NEW LAW

Distribution Among Elementary Districts Will Be Made Next Monday

Madison —(P)—More than \$5,634,000 will be sent by the state next Monday to elementary school districts and city boards of education in allotments of state aid under the new Callahan equalization law, passed by the 1927 legislature, the department of public instruction reported Thursday.

The 1.1 mills tax on all property imposed by the law, which supported several small school taxes for varied state aids brought a revenue to the public schools fund income of over \$6,000,000, out of which the state aid is paid.

The total of the \$5,634,000 being paid to all of the poorer school districts and some of the more wealthy ones Monday, \$160,000 has been or will be out for transportation of school children and \$240,000 for supervisory teachers. The remainder, by law goes into a permanent school fund.

The distribution under the new Callahan law on the basis of \$500 per teacher in the elementary school, plus an amount in inverse ratio to the difference between the districts assessed valuation and \$250,000.

That is, each district receives \$250 for each elementary school teacher. The department has found \$250,000 to be about the average valuation of the districts. If it is lower the state pays an amount equal to the sum that would be obtained in taxes on the difference, at the local tax rate. If it is higher, the state aid is limited to the flat rate of \$250 per teacher.

This aid is not connected with the common fund income aid, which was established by the constitution, when the government one section of each township to establish a school fund. During the Civil War the state borrowed about \$7,000,000 from this fund and the interest on the money now constitutes, with the state's own money, the common school fund income. This is administered for both grade and high schools, but is small compared to the new all inclusive fund.

All other aids, after the common school fund income and the public school fund income have been divided out, total less than a million dollars.

The state department has estimated that it costs \$50,000 annually, with the cost still rising, to maintain the schools of the state. Of this about \$7,000,000 is state aid, \$5,000,000 county aid and \$38,000,000 local taxes for school purposes.

CONSERVATIONISTS ARE SEEKING MAYOR'S JOB
Green Bay —(P)—Green Bay's mayoralty contest is to be staged between conservationists. At the April 2 election, A. W. Icks, who besides being city assessor, is a member of the state conservation commission, will oppose Elmer S. Hight, who is a state senator who formerly was secretary of the state conservation department.

A third candidate is W. E. Daniels, who is running on a platform which contains an anti-smoke ordinance plank.

Green Bay Hall was at one time secretary of state. He was later at the head of the conservation department until the 1927 legislature provided for a commission which should employ a director. Mr. Icks was chosen by Governor Zimmerman as a member of the commission which replaced Hall by the late Louis B. Nagler as director of conservation.

URGES PREPARATION FOR SPRING BREAKUP

Every effort to open drainage ditches is to be made by the Outagamie county highway department under instructions from D. F. Culbertson, divisional state highway engineer. Mr. Culbertson points out that deep snow banks line the roads in many places and that in order to drain the water which follows the melting of this snow it is necessary to open trenches. He orders that as many men as needed be employed to do this work so that maintenance work on the roads when the snow is gone will be harder than usual. Mr. Culbertson says that the charge for opening these trenches will be made against the state maintenance allotment.

SPECIALISTS ASSIST AT 4-DAY FARM SCHOOL

Spooner —(P)—Four extension specialists from the University of Wisconsin College of agriculture are assisting with the four day school now in progress at the University of Wisconsin station. J. B. Hayes is speaking on poultry problems, James Macey on swine and sheep, J. G. Milward on potato growing, and G. C. Humphrey on livestock problems.

SCHOOL BOARD CAN'T HIRE SPECIAL COUNSEL

Madison —(P)—The Milwaukee school board has authority to hire legislative counsel or attorneys outside of the city attorney, or to pay out of state, county or city funds for such "lobbyists." O. G. Munson, chief clerk of the state senate, was advised Friday in an opinion from the attorney general's office.

"My Thirty Years at Sea"

BY CAPTAIN GEORGE FRIED

A captain's life is not wholly one of color and adventure. Coupled with his responsibility for safety and care of crew and passengers are the scores of petty questions and traveling problems that come to him for decision. Some of Fried's troubles and their attendant serious and humorous side lights are told in this chapter.

BY CAPT. GEORGE FRIED Chapter XII

Supervising the operation of the vessel is not always the master's greatest difficulties. There are times when he might wish he were a sort of walking encyclopedia. He must answer questions concerning the ship, storms, water and hundreds of other subjects pertaining to the sea and should always be ready to tell stories, especially in the dining saloon.

Catering to the traveling public and protecting it also are the tasks of the captain. On the North Atlantic the professional gambler hunts his prey, especially at the height of the tourist season. Warnings are posted in conspicuous places against the unwary tourist, wishing to pass the time away innocently in a small game on the water. The gambler always starts in a small way and only begins to win when the stakes get large. Many of these card sharps are known to the officers of the ships, but now and then a new one comes along. I recall meeting a couple on the deck one day, an attractively dressed pair, who greeted me effusively. During the conversation the man rather than let anyone know he was a gambler. This struck me as rather strange. I inquired and found there was no baggage in the hold belonging to that couple. I was suspicious. Later I saw them playing cards.

They were winning. I warned their would-be victim, but he did not take me seriously. He fully appreciated the situation the next day when he won and they refused to give him a check. The gambler had accepted a check. The gambler had allowed him to win to vary the monotony. The matter was brought to my attention and the cash was turned over at my request. No further games were held in which the pair participated for the remainder of the voyage. The victim of a swindle of this type sometimes takes his medicine rather than let anyone know that he has been "taken over" there by hurting his reputation.

The ship's pool satisfies the average traveler who wishes to gamble. The pool is made up by passengers who pay from one to several dollars for a ticket. Each ticket is numbered. Sometimes it is auctioned off to the highest bidder.

When the ship's run is posted the ticket holder is notified of the winning with the last number of the mileage is the winner.

Settling disputes also go to the captain. One that caused me considerable embarrassment for a while was the case of a woman who left a valuable dog with the butcher. The butcher, by the way, takes charge of dogs for the voyage. The trip was rough. The woman became seasick.

The competition brings together a picked field of 251 athletes, of the largest entries in the history of the event.

Illinois served notice of its superiority by qualifying 11 men in the trials Friday night, placing two men in the 60 yard dash, three in the 70 yard high hurdles and another two in the mile and half mile. Iowa and Indiana each qualified six men, with Ohio, South Carolina and Michigan each and Chicago four each. Wisconsin qualified three men. Northwestern and Minnesota two each and Purdue one.

Indications that records will be smashed in the finals developed in the preliminaries when a new mark was set in the 60 yards dash and a trio of hurdles led the Big Ten record in the 70 yard high hurdle event. The Wisconsin qualifiers were Henke, in the 440 yard run, Davidson in the 440 and Roden in the 70 yard high hurdles.

On Thursday the girls served a luncheon to three teachers, Misses Irma Hoffman, Selma Benson and Mabel Watkins, and six students, Misses Constance Flannigan, Beulah Green and Julia Beson acted as hostesses.

On Tuesday the girls also served a luncheon to three teachers and six students, with Misses Leona Diny and Oliver Werner acting as chairman of arrangements. The faculty guests were Misses Mildred Roney, Hester Hurley and Mable Watkins.

A poster on "How the Tax Dollar is Spent" was made by Miss Ethel Luckie as project work in the social science class taught by Miss Marguerite Roome at Roosevelt junior high school.

The statistics of the poster show the expenditure of the average tax dollar. Twenty-seven per cent goes toward schools, 9-10 per cent for playgrounds, 1-5-10 per cent for libraries, 3-5-10 per cent for street repair, 3-7-10 per cent for hospitals and welfare work, 3-10 per cent for fire, 3 per cent for general administration, 3 per cent for health, and 11-4-10 per cent for police protection; and 3-5-10 per cent for public utilities, courts and prisons; and 9-10 per cent for debt, street cleaning, parks, etc.

CLASS MAKES DRAWINGS OF COLONIAL SCENES
Cartoons and stick men drawings of how the colonies reacted to the Stamp Act were made by members of the social science class taught by Miss Hilda Kippinham at Wilson junior high school. The cartoons in the bulletin board were made by Norman Summers, Ruth Kapp and Frank Schubert.

DANCE CINDERELLA EVERY SUNDAY

DID YOU KNOW THAT—
AN FRANCISCO has a Hawaiian rook who pitches, plays first and chases flies and hits 'em on the nose. Gus the rook, says he feels Malice, wick, more than any other rook, and they meet in Boston soon. Harry Heimann says Bill Kamm is the best third baseman in his league and everybody agrees. Jeff Tesreau has sent another pitcher from Dartmouth to the majors. This one is Bill Breckinridge with a 1-0 record. The other was Edwards, who's the Braves last summer. Jack Sutherland expects another big year at Pittsburgh with plenty of veterans back and a lot of wood freshmen for football. Honietta, Tex., asked for a donation from Dempsey to help build a memorial to Rickard and Jack said Madison Square Garden was the place for that. If the Garden itself wasn't a memorial to Tex.

THE BLACK PIGEON

© 1929 By NEA Service, Inc. BY ANNE AUSTIN

THIS HAS HAPPENED
"HANDSOME HARRY"
BORDEN, promoter of dubious
stock companies, is shot be-
tween one and four o'clock Sat-
urday afternoon. His body is
found Monday morning sprawled
beneath the airshaft window
of his private office by his sec-
retary, RUTH LESTER.

The first suspect questioned
by POLICE DETECTIVE Mc-
MANN is MRS. BORDEN, the
promoter's wife and mother of
his two children. She admits
calling Saturday afternoon for
her monthly alimony check but
denies any knowledge of the
murder. The second suspect is
Ruth Lester, who tells of Bor-
den's attempt at familiarity with
her Saturday morning, but who
insists she knows nothing of
the crime.

The third suspect is JACK
HAYWARD, Ruth's fiancé,
whose office is just across the
narrow airshaft from Borden's.
He explains his presence on the
seventh floor that fateful after-
noon by saying he had returned
from his and Ruth's matinee tick-
ets left on his desk. Further
suspicion is cast on Jack by the
testimony of BILL COWAN,
who tells of hearing Jack
threaten Borden Saturday morn-
ing when he saw the promoter
attempt familiarity with Ruth
in the opposite office.

Cowan also tells of telephon-
ing Jack Saturday afternoon,
of being plugged in on a busy line
and of hearing Borden's voice
quarrelling violently, presuma-
bly with Jack. While plain-
clothes detectives are dispatch-
ed to bring in BENNY SMITH,
Borden's office boy and RITA
DUBOIS, night club dancer and
friend of Borden's, McMANN
tells Ruth and Jack they may
go to lunch. They are followed
by a detective trained in lip-
reading. Ruth returns to the
office haunted with the fear that
any minute may bring Jack's ar-
rest.

NOW GO ON WITH THE STORY
CHAPTER XXII

"Miss Lester," McMANN called to
Ruth, who was hanging up her hat
and coat. "You're familiar with Bor-
den's letter files, of course. I wish
you'd go through them and bring
me every letter you can find that
contains a threat of any kind. A
promoter of his ilk is bound to have
made bitter enemies and I don't
want to overlook any bets. Also,
bring me his cancelled checks for
the last year. If he has been pay-
ing blackmail to anyone, I'd like to
know it."

"Yes, Mr. McMANN," Ruth agreed
eagerly. She was grateful for any
task that would keep her mind off
Jack Hayward's almost inevitable
arrest. And her respect for the de-
tective rose. He was not letting
the blackness of his case against
Jack Hayward make him indolent
or careless in opening up new
avenues of investigation. A detective
McMANN; not just a third degree
bully, as she had feared.

A few minutes later she entered
Borden's private office, which the
detective had made his own and laid
two bulky folders before him. "Mr.
Borden, when I first came to work
for him, told me he received many
blackmail and death-threat letters
from ruined investors and instructed
me to file all that I found in his mail
in this folder. He pretended to
laugh at them, but I'm sure he was
afraid. I think he had a private
detective or some sort of body-
guard."

McMANN, obviously impressed,
opened the folder and began to
rifle through the odd collection of
letters it contained. "That so?
What gave you that impression,
Miss Lester?"

"A big, uncouth-looking man,
whom Mr. Borden called 'Jake'—I
never heard his last name—was
in and out of the office frequently
and Mr. Borden always saw him,"
Ruth answered eagerly. "And if a
new threat had been received in
the mail, Mr. Borden always called
for the folder when Jake made his
next visit. Frequently also, when
Mr. Borden was still in his office
when I left, I saw, as if waiting to
protect Mr. Borden. At least that
is the only explanation I could think
of."

McMANN frowned in tense con-
centration. Then: "Did this Jake have
a key to the office, Miss Lester?"
Ruth shook her head. "I don't
know. I don't know anything else
about him at all. Of course I never
asked Mr. Borden any questions,
and he never volunteered any in-
formation."

McMANN left the room, apparently
to give instructions to Detective
Birdwell in the outer office, then
returned and began to study the let-
ters again, frowningly. "Nothing re-
cent here," he said at last, closing
the folder, "but of course I'll put a
man on this job. Something may
turn up, but I doubt it. Now let's
see these cancelled checks. You
checked his bank statements for
him, I suppose?"

"Yes. It was difficult, for he sel-
dom made an entry on a check stub
and when I questioned him about a
blank stub in an effort to keep the
record straight so that he would not
overdraw, he would say, 'Oh, I don't
know! Two or three hundred, I
guess. Just charge it to "cash."'
Sometimes he drew as much as two
or three thousand dollars out of the
bank in a single week."

"Any checks to women?" McMANN
demanded.
"Only to Mrs. Borden," Ruth told
him.
"So 'Handsome Harry' was no wo-
man's fool," McMANN approved,
smiling crookedly. "Any charge ac-
counts for his lady friends?"

Again Ruth shook her head. "No,
not in his name at least. But from
what he said to Rita Dubois on
Saturday I gathered that he had
given her letters to the credit man-
agers of several shops. I imagine
the accounts were to be opened in
her name, with his name as guaran-
tee of payments, but of course I
can't be sure."

"What did he say?" McMANN in-
terrupted sharply.
"Something about 'they all fall
soon or later,' and that he liked
them when they weren't too easy,"
Ruth answered, flushing. "He met
Rita Dubois at the Golden Slipper
about three weeks ago, and was in-
fatuated with her from the first."

"And she with him?"
Ruth's flush deepened. "N—no. She
hated him even to touch her
hand. I was surprised that she had
agreed to go to Winter Haven with
him Saturday."

"There's something else, Miss Les-
ter. Out with it!"

"Well," Ruth admitted reluctant-
ly, "she positively admitted to me
that she was gold-digging Mr. Bor-
den. That was Saturday morning.
She noticed the change in my ap-
pearance, too, and charged me,
good-naturedly, with having 'dolled
up' to 'vamp' Mr. Borden. She
laughed then, and said I could have
him 'next week,' implying that she
would get all she wanted out of him
over the weekend. Then she warned
me not to tell Borden what she had
said about it. I replied by telling
her of my engagement to Mr. Hay-
ward. Mr. Borden came out of his
private office then and ended the
conversation between Miss Dubois
and myself."

"Hm!" McMANN frowned, as he
scrawled notes on a sheet of yellow
paper. "No wonder she was sore
when he 'stood her up.' Now, Miss
Lester, I'd like you to tell me, if
you can, who preceded Rita Dubois
in Borden's affections. 'There was
someone else, of course?'"

Ruth hesitated, loath to involve
another woman, probably as inno-
cent as herself of Borden's murder.

but she realized that now, when the
shadow of arrest hung over the man
she loved, was no time to be scrupu-
lously ethical. And if she did not
tell, McMANN would learn from other
sources. . . . "From the time I
came to work for Mr. Borden until
he met Miss Dubois," she began
slowly, "Mr. Borden was very atten-
tive to a Miss Gilman—Cleo Gil-
man."

"Were they lovers?" McMANN
asked bluntly.
"I don't know, but—I presume
so," Ruth answered reluctantly. "I
heard her remind him, on the fifth
of December, I believe it was, that
her rent was due, and I saw him
give her cash to pay it. She did not
come to the office very frequently,
but until he met Miss Dubois he
made an engagement with her by
telephone nearly every day."

"Her telephone number and ad-
dress?" McMANN demanded.
"I don't know her address, but her
telephone number was Wayne 3400,"
Ruth told him.

"And did they quarrel over Miss
Dubois?"

"I don't know. He simply stopped
calling her on the phone and gave
me instructions to tell her he was
not in if she called him."

"And what did she say to you
when you told her Borden wasn't
in?"
The ghost of a smile tugged at the
dimple in the corner of Ruth's en-
chanting little mouth. "The first
time she left word for him to call
her and he didn't of course. The sec-
ond time she laughed and said,
'Well, well! So that's that! Listen,
darling, tell him Cleo says "Goodby,
good luck and God bless you." She
never called again, when I was
here."

"You are sure of that? Sure she
wasn't the woman who called him
Saturday morning and wouldn't
leave her name?" McMANN prodded.
"No. The voice was not the same
at all," Ruth replied unhesitatingly.
"The woman who called Saturday
morning had a beautiful throaty
contralto voice. Miss Gilman's is a
little nasal and quite high-pitched."

McMANN reached for the exten-

sion of the telephone which he had
hooked up with police headquarters.
"Hello! That you, Captain? McMANN
speaking. Have a good man sent out
to bring in Cleo Gilman. Yes—that's
right. One of Borden's lady friends
that he took with about three
weeks ago. Telephone number,
Wayne 3400. . . . Yes. . . . I got
enough suspects to fill a jail. . . .
No, I'm not making any arrests yet.
"What's that? The boys didn't find
a gun in either place? . . . Well, I
didn't think they would. . . . By
the way, Captain, any report on
Borden's man servant, Ashe, yet? I
told Birdwell an hour ago to have
him brought here. . . . Not at Bor-
den's apartment, eh? Well, I want
him brought here as soon as he
shows up. . . . Yes, here! I'm mak-
ing these offices my headquarters
for today, at least. Yes, she's a lot of
help to me, and I don't want to drag
her down to headquarters if I can
help it," McMANN nodded and
smiled at Ruth to indicate that he
was referring to her.

"Mrs. Borden? I sent her home at
noon. She has a sick child. No, no
danger of her blowing. . . . Oh,
sure, she's still in the picture.
O'Brien's keeping an eye on her. . .
All right, Captain. See you soon,"
and McMANN hung up the receiver
just as Birdwell opened the door be-
tween the two offices.

"Detective Clay and Rita Dubois,
sir."
"Good! Show Rita in. I'll speak to
Clay out there," McMANN directed,
as he rose from Borden's desk.
"Shall I leave the room, Mr. Mc-
MANN?" Ruth asked, but so wistful-
ly that the stern-faced detective
smiled again, with something like
paternal fondness.

"I should say not! I'm counting
on your help," he boomed, and bolt-
ed from the room before she could
thank him.

A minute later the door opened to
admit Rita Dubois. The dancer's
black eyes looked enormous in the
face, ecstatically beautiful but, but
there was a nonchalant smile on the
vividly rouged lips.

"Well, well! We meet again, dar-
ling," she drawled, as she swayed,

gloved hand on a slim hip, toward
Ruth Lester. "I see you've shed the
horn-rimmed spectacles, along with
the rest of your scared bunny dis-
guise, and believe me, you're a riot."
She had come quite close, and
suddenly her voice dropped to a
whisper: "Listen, infant! Slip me a
tip, won't you? Does that big stiff of

a detective know I was here Satur-
day afternoon? Is that why he sent
a dick out to drag me in?"
Ruth smiled, felt again that warm
rush of friendliness toward the
sassy, slinky dancer. "The elevator
operator told him he brought you
up about two o'clock Saturday af-

ternoon," she answered in a whis-
per.
"Thanks, kid!" The dancer drew a
sharp breath, the nonchalant smile
was wiped from the rouged lips.
Suddenly she looked old and tired
and very much afraid.
(To Be Continued)
Read the next chapter for Rita

Dubois' story. The clues are flying
thick and fast.
Edward D. Gregory of Bedford,
Va., alleged that 2,300 volts from the
city lighting circuit ruined his
radio set. The city refused to pay
damages.

Come... see the greatest Style Exhibit ever shown

Mon. - Tues.
March 11-12

This style exhibit will give well dressed men an opportunity to review Society Brand's complete line of suit and topcoat models for spring. A tailoring expert from the Society Brand organization has made a special trip from Chicago for the occasion. He personally will take the measurements of visitors who wish to have clothes made up, either in regular ready-to-wear sizes, or according to individual measurements.

The Funeral Today

THE present day, correctly man-
aged funeral is without any
sign of show, display and em-
phasized prominence.
A more quiet and reverential aspect
is taken. Methods and manner are
less complicated and disturbing. Each
detail of preparation and procedure
follows in careful order.
Our service is so constituted and con-
ducted: with every newly modern
idea, process and form of up-to-date
equipment complete.

Find Out Why Milly Is Cut Off In Will

EXPIATION by "Elizabeth"

double-day, Doran and Company. The real name of "Elizabeth" is Mary Annette Beauchamp, Countess Russell. She was married to the English Earl Russell during the war. She had previously been married to Count von Arnim, of Prussia, who died in 1910.

Switzerland, where "Elizabeth" has a chalet, appears in her new novel "Expiation" for it is there Agatha, Milly's sister, lives. Milly, an English woman, is however the principal character in this novel, and it is primarily an English story. It is Milly who sinned and who must expiate that sin.

When Milly's husband, Ernest, an English gentleman worth a hundred thousand pounds, is killed in an accident, it is found that his will cuts off Milly with a thousand pounds. His brothers and wives are horrified. Why has he given the bulk of his estate to a chemist's widow? Then they find that the dead man in his will has said: "My wife will know why." Milly does know why and accepts the verdict. The story of how she pays for her transgression is a complex and very interesting one. "Expiation" is not equal to "Elizabeth's" best work, but it is a pleasing narrative.

C. C. COMMITTEES STUDY NEW BILLS

Proposed Laws Will Affect Busses, Chain Stores, Working Hours

Three bills now before the state legislature are being studied by committees of the chamber of commerce, according to Kenneth Corbett, secretary. Two of the bills, one on the hours for women employees, the other on chain stores, are being studied by a retail committee of which John N. Welland is chairman. The third bill on regulation of busses and bus fees is being studied by the chamber transportation committee and traffic division.

The bill regulating the working hours for women provides that women shall not work more than 48 hours a day and not more than 44 in a week. It also provides that during emergency periods of not more than four weeks in the course of a year, women employees may be asked to work nine hours a day but not more than 50 hours a week. During the period the wage scale shall be one and one-half times the regular scale. The dinner period shall not be less than an hour, the bill states.

Chain stores in the state will be taxed 5 per cent of their gross earnings and asked to pay a yearly license fee of \$500, under another bill before the legislature. The license fee will be assessed against each store in the state, the money to be paid to the state treasurer and he in turn to take out the expense of collection and return it to the city, village or town in which the store is located.

The bill regulating busses is the outgrowth of the company between the city of Menasha and the Wisconsin, Michigan Power company over license fees. It was instructed into the assembly by John Rohan, assemblyman from the second district of Outagamie-co.

General provisions of the auto bus transportation law are amended to provide that no auto transportation company shall discontinue or abandon service, except temporary suspensions ordered by highway authorities, without authority and consent of the railroad commission.

BUILDING PERMITS

One building permit was issued Wednesday by John N. Welland, building inspector. It was granted to Marie Van Laarhoven, 1227 E. Fremont-st, for a garage. The estimated cost is \$25.

Odyssey Is Story About South Seas

JOHN CAMERON'S ODYSSEY

transcribed by Andrew Farrell

The Macmillan Company.

"I John Cameron, was born in Scotland on February 1, 1850. As a lad of seventeen I went to sea, and for thirty years I sailed the Atlantic, Indian, and Pacific oceans. This book tells of my adventures." Thus the rough old Scotch skipper begins the true account of his exciting and romantic life. His memoirs, together with rough notes, were transcribed and put into order by Andrew Farrell, but his story is substantially as he himself set it down in writing.

His most interesting wanderings were in the South Seas, where he made the acquaintance of missionaries and traders, encountered typhoons, was shipwrecked, faced a multitude of sailors, was marooned in a desert island, and once at least got into serious difficulties with the Spanish on the charge that he had furnished arms to their native subjects. Visits to dusky chiefs (including a few cannibals) added spice to his life. On one occasion he met his distinguished fellow countryman, Robert Louis Stevenson, then sailing through the archipelagoes.

John Cameron's true story recalls the old romantic days when sailing vessels still cruised through the South Seas.

BEST SELLERS

Books reported to the "Outlook" by fourteen principal book-shops in the United States as leading in sales last week:

FICTION

Bishop Murder Case, by S. S. Van Dine (Scribner's).
Mamba's Daughters, by Du Bose Heyward (Doubleday, Doran).
Expiation, by "Elizabeth" (Doubleday, Doran).

Joseph and His Brethren, by H. W. Freeman (Holt).

Feder Victorious, by O. E. Rolvaag (Harper's).

NON-FICTION
The Magic Island, by W. B. Seabrook (Harcourt, Brace).
Elizabeth and Essex, by Lytton Strachey (Harcourt, Brace).
The Art of Thinking, by Abbe Dimmet (Simon and Schuster).
Tasputin, by Rene Fulp-Miller (Viking).

Untold Story of Isadore a Duncan, by Mary Desu (Liveright).

This time is the picture it presents of a rich and successful man, Mallard, who, having ignored religion, seeks desperately for hope and comfort when the mysteries of eternity stare him in the face.

"If there was no future life," said Mallard, who, according to his own confession, had never had time for God, then "life was only a phantasm." When wealthy and self-sufficient, he had given no thought to the future. "Now," he mused, "he would give his right hand to be sure of survival, with a certain faith."

This new novel of Sir Philip Gibbs is not one of his best—it is not so good as "The Age of Reason." It is marred somewhat by an incredible ending. It will be enjoyed, however, by many readers, and particularly by those who are especially interested in the realistic pictures which it presents of psychic phenomena and spiritualistic beliefs and practices today.

LIFE'S ODDITIES

By George Clark

"I guess you want me to chuck my job and be a waiter just so I'll always be dressed up."

Your Income Tax

NO. 28

Taxes on personal property and real estate paid during the taxable year 1928 are deductible. The revenue act of 1928 permits the deduction of taxes assessed against local benefits, such as, for example, taxes imposed by drainage or irrigation districts, to the extent that such taxes are properly allocable to maintenance and interest charges. The deduction of estate and inheritance taxes is confined to the estate. Retroactive provisions pertaining to deductions of estate and inheritance taxes also are found in the new revenue act.

The Federal income tax may not be deducted. However, income tax imposed upon the income of individuals by States may be deducted by

an individual on his Federal income tax return.

Customs duties paid by a person on articles imported for his own use are deductible. Admission taxes are deductible, but the taxpayer must show that account has been kept of the amount paid during the year. Guesswork will not be accepted.

CHICAGO DOCTOR TALKS TO MEDICAL SOCIETY

Mr. Joseph L. Miller, member of the staff at St. Luke's Hospital, Chicago, and professor of medicine at the University of Chicago, spoke on Chronic Arthritis at the meeting of the Outagamie County Medical Society held at Conway hotel Thursday evening. About 40 doctors from the county attended the meeting.

Alexander Barr, member of the educational staff of the American City Bureau, also spoke. His theme was community betterment, and he pointed out that Appleton took great pride in the number of professional men who are members of the local medical society.

J. R. Perkins, representative of the Oshkosh Elks volleyball team, was in this city Friday morning conferring with A. P. Jensen, physical director of the Y. M. C. A. on Fox River Valley Volleyball Tournament problems.

Professor Marshall Graff was in Green Bay Friday on business. Mrs. C. Lane of Weyauwega is visiting her daughter, Mrs. Elmer Boettcher, N. Morrison-st.

About Time Payments

There is nothing wrong with the time payment or installment plan of paying—excepting that some people don't know how to use it—they abuse it.

Many families have acquired a home—furniture—washing machine, car, etc. on a small down payment and the balance on easy installments.

Some have abused the habit—buying on installments to an extent—greater than their income.

The Citizens plan is based on the investment idea—and our loans have accomplished wonders for hundreds of Appleton people. But be it ever so good—we discourage applicants for loans who abuse the honest and practical use of the plan.

When constructively applied—we will be pleased to serve you.

Book Of Knowledge

Marie Antoinette

After the beheading of Louis XVI, terror seized France. At a whisper that a man was sorry for the king's death, away went that man to the guillotine. Blood ran in the square called Place de la Revolution. No man was safe; husbands were torn from wives, sons from mothers.

The friends of Marie Antoinette rallied to her support and determined secretly to help her to escape.

Prison discipline relaxed and one day friends came to the queen and unfolded plans for her to leave the country.

But among the friends was one who was afraid, who counseled for more time. He pointed out reasons for delay and his arguments were the soul of logic. While he argued, precious time was lost and the guard around Marie was increased beyond hope of escape.

ANOTHER SMILE FOR TODAY

THAT'S OIL RIGHT
DOCTOR: Now, take this dark-colored bottle when you get up, and this oily mixture the last thing before you go to bed.
PATIENT (from New Jersey): Yeah, but--
DOCTOR: Is there anything you don't understand?
PATIENT: Yeah, what's the idea of takin' the oily medicine the latest--Judge.
SOUNDS REASONABLE
VERY WEALTHY PARENT: When I started in business I had nothing at all--absolutely nothing.
SKEPTICAL SON: Maybe, dad. But the people you started to do business with must have had a good deal--Passing Show.
YES, OF COURSE
THE YOUNG WIFE: How do you like the joint, dear?
HER HUSBAND: Fine; but where's the gravy.
THE YOUNG WIFE: I wondered how soon you'd miss it, you absent-minded boy. You didn't bring a drop with the meat--Answers.

WAUPACA COUNTY

NEW LONDON-CLINTONVILLE-WAUPACA

NEARBY TOWNS

MANY PRIZES ARE AWARDED AT EXHIBITS

100 Pens of Rabbits, 50 of Chickens, 12 of Other Poultry on Display

Special to Post-Crescent

New London—One of the big community events of the year for this locality is the First Annual Poultry and Rabbit Show, now being held in the Vernon hall under the auspices of the New London Rotary club. Most of the entries were in Thursday afternoon and included 100 pens of rabbits, 50 pens of chickens and 12 pens of ducks, geese and turkeys. The judging was begun Friday forenoon and completed in the afternoon.

Rabbits were judged by Fred T. Witt, a rabbit specialist of Clintonville and the poultry by George M. Wells, a poultry expert of Oshkosh. After the judging was done, Mr. Wells talked on the Successful Raising of Poultry and Mr. Witt had for his subject the animals he had judged and replied to questions that came thick and fast. On Saturday, the show rooms are open from 9 o'clock a. m. to 10 o'clock p. m. E. A. Hutchinson, director of Smith-Hughes agriculture, Clintonville, Wis., to talk on Soil Fertility. The high school band will entertain during the evening exercises.

Some of the exhibitors who were awarded ribbons and the number of each color they received for poultry and rabbits are as follows:

- RABBITS—Austin Dextler, New London, 1 yellow; Pay A. Parks, New London, 1 blue; John A. Parks, New London, 1 red; Reinhold Veltz, ducks 8 blue; 2 yellow on geese and 2 blue and 1 red on chickens.
- Junior McMan, New London, 2 blue, 3 red and 2 yellow; Albert Ebert, Manawa, 2 blue, 1 red and 1 yellow; Alvin P. Yanke, Clintonville, 1 blue and 2 red; Ervin C. Thies, Clintonville, 4 blue and 1 red.
- Elmer S. Walker, New London, 1 red; E. A. Hutchinson, Clintonville, 2 blue and 1 fifth.
- W. W. Schomacher, New London, 2 yellow; Carl Zander, Manawa, 1 blue; L. H. Frazier, Manawa, 2 blue; Becker Brothers, Manawa, 7 blue and 2 red; Fitzsimmons Fur farm, Fond du Lac, 2 blue and 1 red.
- Poultry—Vern Eblondy, New London, 1 blue, 1 red and 1 yellow; G. C. Hanke, New London, 5 blue and 1 red; Hubert Stichtman, New London, 2 red; Mike Conney, New London, geese, 2 blue; M. F. Abraham, New London, 6 blue, 1 red and 2 yellow.

TALKS ON POULTRY

In his talk on the rearing, housing, sanitation and feeding of chickens, Mr. Wells reached this conclusion: "Treat hens on the farm as well as you do cows and 100 hens will produce more clear profit than one cow." Putting the same thought in other words, the speaker said: "Keep your chickens in a clean, well lighted and ventilated henhouse and feed them regularly on balanced ration and in proportion to the money invested and the labor expended, they will pay you as well as any other farm project."

"You can't throw out into your chicken yard a pan of barley once in a while and expect your hens to reach their limit in egg production or to pay. For get eggs in winter when the prices are high, you must produce summer conditions in your chicken coop. In addition to egg-producing rations, you must feed the birds such green stuff as sprouted oats, cabbage and mangels.

"But, to begin with, you must have an egg-laying strain of chickens of the kind you like best and admire. You must cull out the loafers in your flock by trap nesting or otherwise.

"If a man has a good wife, he had better put her in charge of the hens than to try to take care of them himself. They know more about chickens than men do and are much more successful.

"The best kind of light for a hen house and ventilation can be obtained through the use of a straw loft, gable windows above the loft, large double windows for admitting sunlight and air, or for admitting fresh air, baffler windows."

"If a flock is fed well balanced mash, it will produce more eggs than when fed entirely on whole grain. Sour milk is an excellent feed for hens but no shifting from sour to sweet milk should be done. Boiled potatoes mixed with ground grain makes a good change for the flock. The woman who has a half dozen hens and has table scraps enough to feed them will do better than with any other kind of feed. The trouble in this case is, a scarcity of table scraps for a large flock. One may make money with a flock of 100 chickens and fall down with a flock of 1,000. It is foolish to go into the chicken business on an expensive scale with a high overhead.

"One should get the kind of pure bred chicks he likes from a hatchery, rear them on clean ground, and feed them good rations. Chicks can be bought more cheaply than they can be hatched at home. Purebreds will lay better than mongrels.

"Hens do their best laying the first year, their second-best the second year, and they are not worth much the third year."

SMALL ATTENDS SAFETY GATHERING AT ANTIGO

Special to Post-Crescent
New London—R. J. Small, local agent for the Chicago and Northwestern railroad, attended a bi-monthly meeting of the railroad safety department, which was held in the superintendent's office at Antigo on Thursday. The slogan of the department, "Watch Your Step," was the foundation of many talks

Rabbit Families Delight Visitors At 2-Day Show

Special to Post-Crescent
New London—Fingers reached through wire to touch brown, gray, white, and black fur—for these are March days and the wild March hares are on parade. Two by two, singly, in family groups the rabbits are here. Dabs, figuratively in arms, rooklike youngsters accompanied by worried mothers, handsome fathers in sleek dress attire! Never has any March wind, however strong, blown before in this city such a display of beautiful bunnies. New London Rotarians and business men are justly proud of this, their first poultry and rabbit show at which long rows of fine specimens are displayed.

The first day's show on Friday was well attended, the judging taking place early in the day, so that blue, red and yellow ribbons were plainly seen by the grownups and children in the day by crowds of school children. A splendid showing of poultry is there, too, although the rabbit display in greater in numbers, there are fine representatives of most nationally recognized types of chickens, with a few good specimens of geese and turkeys. Poultry fanciers say that the season is rather advanced for the best showing of fowls, but the committee in charge is well satisfied.

Children loved the cage in which a beautiful Himalayan marten guarded her nest full of tiny white babies, each small blind face adorned with a smudge of black. The wiggling nestful of infants were nearly covered with fur and straw, quite unimpaired that their cages may some day flaunt blue ribbons.

BUNNIES DELIGHT MANY
A cage full of half grown pure white rabbits was one which delighted everyone, for these were so plainly the flappers of the assemblage. Such washing of pink ears! Such constant grooming of already immaculate fur! Between baths given with swift darning pink tongues, such leaping and prancing! These are Easter rabbits incarnate with ruby eyes and floppy inextinguishable ears.

It was interesting to watch the more modest rabbits at their retiring. Some blue, veterans of the show room simply stretched themselves out and amid the quaking of geese and blaring of band instruments folded their chins upon their breasts and went to sleep. But others, after a careful toilet, kicked their alfalfa neatly into a mounded boudoir and crawled within removing themselves as far from the crowd as possible.

Poultry and rabbit specialties were exhibited by the erstwhile retiring fanciers, Jake Bentz and Henry Spahr. The breed, registered name being "The Kandy Kid." This rabbit is a scion of that famous family whose line is seen now and then in Easter displays. Its fur value is negligible, but a quick twist of the head discloses its great worth to the world, for this is one of the finest producers of candy Easter eggs the world has ever known. Judges and spectators alike accorded its worth to the fast growing rabbit industry.

Mr. Bentz's contribution elicited much admiration. Upon first thought it seemed that the excellently mated pair advertised the need of a barber's conception of the old argument to bob or not to bob. In poultry parlance, here was the cock of the walk and somebody else—the pair that Noah sent into the ark—two by two.

Mr. Bentz's contribution elicited much admiration. Upon first thought it seemed that the excellently mated pair advertised the need of a barber's conception of the old argument to bob or not to bob. In poultry parlance, here was the cock of the walk and somebody else—the pair that Noah sent into the ark—two by two.

NEW LONDON PERSONALS

Special to Post-Crescent
New London—Mrs. Irvin Mennschien of Oconto Falls is spending the weekend at the Page Dexter home.

Mr. and Mrs. Ver Schauger and children were guests of Mrs. Schauger's father, Andrew Laib, on Friday.

Mrs. O. P. Cuff has been spending this week at Appleton where she served on the jury for the Outagamie circuit court.

Mrs. John Wochinski and son George returned Thursday from Waupaca where they spent a few days with relatives.

Milo Smith has returned from Chicago, where he visited his daughter Mrs. Rex Munser and family. He also attended the Majestic Dealers banquet at Milwaukee this week.

Louis Soffa has been a business visitor at Milwaukee this week.

Mrs. S. E. Therns and daughter Mary are spending some time at the O. L. Kinsler home at Oshkosh, where they were called by the serious illness of the former's sister Mrs. O. L. Kinsler. Mr. Therns and son William will spend the weekend in that city.

Miss Mary Wendlandt and Miss Marjory Zaig are spending the weekend at Ormsby hall, Lawrence college at Appleton as guests of the former's sister, Miss Dorothy Wendlandt.

F. E. Lowell returned this week from St. Charles, Ill., where he attended the funeral of Mrs. D. A. Davidson, wife of the superintendent of Eorden plants in the southern states.

Miss Mildred Stengstock who recently submitted to an operation at a local hospital, left Thursday morning for her home at Tigerton. She was accompanied to her home by her sister, Mrs. Con Schulz and daughter Audrey, who will return to this city on Sunday.

The American Luther league held a ladies' night in the Lutheran church parlors Thursday evening. Games and lunch provided entertainment for the evening. Mrs. William Marks and Mrs. Ernest Danie were awarded prizes in contests.

Mrs. Bernard Hendricks entertained the members of the Birthday club Friday afternoon in celebration of her birthday anniversary. Five hundred was played, Mrs. R. Rastle receiving the prize for high score in cards. Mrs. Page Dexter received second prize. The next meeting will be held at the Charles Schmallenberg home, on Friday, March 15.

The meeting of the Neighborhood five hundred club was held this week on Thursday afternoon, instead of Wednesday evening as usual. Mrs. Milo DeGross being hostess. Miss Ida Vergove received the prize for high score in cards, Mrs. Charles Noek received second prize and Mrs. C. C. Seims received consolation prize. Plans for the next meeting have not been completed.

The regular meeting of the Woman's Relief corps was held at I. O. O. F. hall Friday afternoon. Only a short business session was held. The members of the March social group will hold a social hour following the business routine at the next meeting.

Mrs. Harry B. Cristy will be hostess to the Woman's Study club which will meet Monday afternoon March 11. The subject of this meeting will be "Masters of the Renaissance." Mrs. Herbert Ritchie will read a paper on "Michael Angelo" and Mrs. Frank Jennings will review the life and works of "Titan."

upon safeguarding life in and about railroad yards, freight depots and stations. Eighteen road representatives from points between Kaukauna and Antigo attended, and were present at the dinner served at an Antigo hotel.

SMALL ATTENDS SAFETY GATHERING AT ANTIGO

Special to Post-Crescent
New London—R. J. Small, local agent for the Chicago and Northwestern railroad, attended a bi-monthly meeting of the railroad safety department, which was held in the superintendent's office at Antigo on Thursday. The slogan of the department, "Watch Your Step," was the foundation of many talks

Mr. and Mrs. John Yanke and Mr. and Mrs. Paul Milke attended the funeral of Mrs. Richard Milke held at the East Bloomfield church, Wednesday afternoon.

Miss Leone Smith spent the week with Miss Bessie Stratton at Neenah.

M. Libman of Oshkosh was in Fremont, Friday.

NOMINATE OFFICERS AT VILLAGE CAUCUS

Special to Post-Crescent
Weyauwega—The storm on Wednesday kept many citizens from attending the village caucus at the high school gym. Dr. E. J. Jones acted as chairman and I. J. Rieck, clerk. Following are officers who received nominations and whose names will appear on the ballot at the spring election:

County supervisor, H. N. Glocker; George Stafford, village president; C. A. Peterson and A. J. Rieck; village clerk, I. J. Rieck; village treasurer, Kate McCall; assessor, H. W. Crane; Justice of the Peace, N. E. Clark; and H. J. Becker; Constable, Henry Strohsen; George Steiger, Trustee; E. M. Hertz, Perry Baxter, Fred Hertz, Martin Huchner, E. E. Bratz and Fred Hadden.

ITEMS OF INTEREST TO STEPHENSVILLE AREA

Special to Post-Crescent
Stephensville—Mrs. Louis Stold entertained the Order of Martha Thursday afternoon. Cards were played and prizes won by Mrs. A. H. Diedrich, Mrs. Leonard Steffen, Mrs. H. J. Van Straten and Mrs. Fred Barnum.

Mr. and Mrs. Charles Stold entertained the following guests at cards Thursday evening, Mr. and Mrs. Frank Stold, Miss Inez Timm, Mrs. Leonard Steffen, Mr. and Mrs. Louis Stold, Mrs. A. H. Diedrich and Mrs. H. J. Schuler.

Mr. and Mrs. Leonard Steffen, Mr. and Mrs. A. H. Diedrich and Mr. and Mrs. Walter Puls were Appleton shoppers Wednesday.

Miss C. Short, music instructor from Lawrence college, Appleton, visited the village school Tuesday for the first time since the middle of December.

the books of the company and made a complete check-up of all financial affairs. Work of local representatives of the company was found to comply in every way with the regulations of the railroad.

Other visitors this week included Mr. Zadniechek, of Green Bay, representing the traffic department, and Mr. J. Curry, of the N. W. Teleregraph company of Milwaukee. The latter was here for the purpose of investigating the refrigeration of perishable freight movement while the former together with the agent, Mr. Small called personally upon patrons of the railroad here checking up on the service and otherwise furthering the service and good will of the company.

AUDITORS CHECK BOOKS AT RAILWAY STATION

Special to Post-Crescent
New London—E. L. Perrott, divisional auditor of the Chicago and Northwestern railroad and his assistant, Mr. Bryant of Chicago, were in this city on Wednesday to audit

BIRTHDAY PARTY HELD AT VOIGHT DWELLING

Shiocton—A number of friends and relatives of Mr. and Mrs. Ben Voight, gathered at their home Sunday to celebrate Mrs. Voight's birthday. Cards games and music furnished entertainment for the evening. A midnight lunch was served. Guests present were Mr. and Mrs. Henry Lemke and family, Mr. and Mrs. Guy Sykes and family, Mr. and Mrs. Otto Kuehner, and son Rhinert, and Mr. and Mrs. Leonard Voight.

A. E. Payton, Fred A. Peebles and William B. Puls were called to Appleton Monday to serve on the jury for the circuit court of criminal cases.

Mrs. W. H. Towne was hostess to the bridge club at her home Thursday afternoon. Honors were won by Mrs. F. O. Town and Mrs. Frank Colburn and the consolation gifts by Mrs. Monroe Manley and Mrs. George Skene. Mrs. Clark Willcox will entertain the club next Thursday afternoon.

TOWN TO VOTE ON PURCHASE OF TRUCK

Matter Will Be Taken Up at Caucus and May Be Election Referendum

Bear Creek—At a meeting of the town board and road pathmasters of the town of Bear Creek early this week, it was decided to bring the question of purchasing a Four Wheel Drive truck with snow removal equipment and also to be used for hauling gravel for road purposes, up at the town caucus on March 16, in order that it may be voted on at the spring election. The estimated cost of the truck and equipment is around \$6,000.

Miss Margaret Murray of the town of Deer Creek, spent Thursday night with Miss Marie Ruffes of this village. They left Friday morning to attend the Outagamie circuit court convention at Kaukauna, Friday and Saturday. Other teachers attending from this community were Miss Eleanor and Genevieve Moriarity, Ishi Jepson, Lorette Koster and Mrs. Gertrude Long.

NOTICE
Town caucus for the nomination of candidates for Town Officers, will be held at 2 P. M. March 14, 1929 at Town Hall in Town of Grand Chute.

Signed Caucus Committee, adv.

SEVERAL BURIALS AT CLINTONVILLE

Clintonville—Funeral services for Mrs. Olive Lucinda Rockwell, 75, who died at the home of her son, Hiram Rockwell on E. Madison on Monday afternoon were held at 1:30 Thursday afternoon from the home and at 2 o'clock from the Bethany church. The Rev. L. G. Moland was the officiating pastor and burial was made in Graceland cemetery.

Olive Albrich was born Feb. 5, 1854, in Brownco, where she grew to womanhood. In 1875 she was married to William Henry Rockwell and they lived for a number of years in Delaware, Iowa. Later returning to Shawano where they lived at Gadsburg for about eight years and then three years in the town of Lessor. Mr. Rockwell died Feb. 22, 1922, since which time Mrs. Rockwell has lived with her children and came to this city with her son Hiram and family three years ago.

She is survived by one sister, Mrs. Fred Rockwell of Green Bay; four brothers, William Adrich of Nebraska, Arthur of Colorado, Matt and Peter of Washington; two sons, Charles of Park Falls, Hiram of this city, one daughter, Mrs. Lillian Schrickel of Green Bay and eight grandchildren.

Funeral services for Arthur Gough, 66, prominent farmer of town of Matteson, who died Monday at Appleton were conducted from the St. Rose church of this city at 10 o'clock Thursday morning by the Rev. Fr. Dietrich. Burial was made in the Catholic cemetery. Mr. Gough was a social member of the Knights of Columbus of this city and a member of the Catholic Foresters of Bear Creek.

The usual union service will be held at the Congregational church on Sunday evening. The Rev. L. G. Moland, pastor of the Bethany church of this city, will have charge of the services.

Mrs. Paul Dekar-Ske, Mrs. Robert Blair and Mrs. O. C. Eberhardt were hostesses at a 1 o'clock luncheon given at the Eberhardt residence on Thursday. Following the luncheon the afternoon was spent in playing bridge, a table being in play. Prizes were awarded to Mrs. William Schmidt and Mrs. Orrie Williams.

The War Mothers will meet at the

FUNERAL SERVICES ARE CONDUCTED FOR MRS. ROCKWELL AND ARTHUR GOUGH
